NATURALSHRIMP INCORPORATED
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2019
(Unaudited)

NOTE 1 – NATURE OF THE ORGANIZATION AND BUSINESS

Nature of the Business

NaturalShrimp Incorporated (“NaturalShrimp” or the “Company”), a Nevada corporation, is a biotechnology company and has developed a proprietary technology that allows it to grow Pacific White shrimp (*Litopenaeus vannamei*, formerly *Penaeus vannamei*) in an ecologically controlled, high-density, low-cost environment, and in fully contained and independent production facilities. The Company’s system uses technology which allows it to produce a naturally-grown shrimp “crop” weekly, and accomplishes this without the use of antibiotics or toxic chemicals. The Company has developed several proprietary technology assets, including a knowledge base that allows it to produce commercial quantities of shrimp in a closed system with a computer monitoring system that automates, monitors and maintains proper levels of oxygen, salinity and temperature for optimal shrimp production. Its initial production facility is located outside of San Antonio, Texas.

The Company has three wholly-owned subsidiaries including NaturalShrimp Corporation, NaturalShrimp Global, Inc. and Natural Aquatic Systems, Inc.

Going Concern

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”), assuming the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. For the six months ended September 30, 2019, the Company had a net loss of approximately \$1,652,000. At September 30, 2019, the Company had an accumulated deficit of approximately \$42,875,000 and a working capital deficit of approximately \$4,562,000. These factors raise substantial doubt about the Company’s ability to continue as a going concern, within one year from the issuance date of this filing. The Company’s ability to continue as a going concern is dependent on its ability to raise the required additional capital or debt financing to meet short and long-term operating requirements. During the six months ended September 30, 2019, the Company received net cash proceeds of approximately \$100,000 from the issuance of convertible debentures, approximately \$1,774,000 from the issuance of approximately 14,745,000 common shares of the Company’s common stock through an equity financing agreement, and \$250,000 from the sale of 250 Series B Preferred shares. Subsequent to September 30, 2019, the Company received \$500,000 from the sale of Series B Preferred shares. (See Note 10). Management believes that private placements of equity capital and/or additional debt financing will be needed to fund the Company’s long-term operating requirements. The Company may also encounter business endeavors that require significant cash commitments or unanticipated problems or expenses that could result in a requirement for additional cash. If the Company raises additional funds through the issuance of equity or convertible debt securities, the percentage ownership of its current shareholders could be reduced, and such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, the Company may not be able to take advantage of prospective business endeavors or opportunities, which could significantly and materially restrict our operations. The Company continues to pursue external financing alternatives to improve its working capital position. If the Company is unable to obtain the necessary capital, the Company may have to cease operations.

The Company plans to improve the growth rate of the shrimp and the environmental conditions of its production facilities. Management also plans to acquire a hatchery in which the Company can better control the environment in which to develop the post larvae. If management is unsuccessful in these efforts, discontinuance of operations is possible. The consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited financial information as of and for the three and six months ended September 30, 2019 and 2018 has been prepared in accordance with GAAP in the U.S. for interim financial information and with the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, such financial information includes all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of our financial position at such date and the operating results and cash flows for such periods. Operating results for the six months ended September 30, 2019 are not necessarily indicative of the results that may be expected for the entire year or for any other subsequent interim period.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to the rules of the U.S. Securities and Exchange Commission, or the SEC. These unaudited financial statements and related notes should be read in conjunction with our audited financial statements for the year ended March 31, 2019 included in the Company's Annual Report on Form 10-K filed with the SEC on July 1, 2019.

The condensed consolidated balance sheet at March 31, 2019 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles in the U.S. for complete financial statements.

Consolidation

The consolidated financial statements include the accounts of NaturalShrimp Incorporated and its wholly-owned subsidiaries, NaturalShrimp Corporation, NaturalShrimp Global and Natural Aquatic Systems, Inc. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basic and Diluted Earnings/Loss per Common Share

Basic and diluted earnings or loss per share ("EPS") amounts in the consolidated financial statements are computed in accordance with ASC 260 – 10 "Earnings per Share", which establishes the requirements for presenting EPS. Basic EPS is based on the weighted average number of shares of common stock outstanding. Diluted EPS is based on the weighted average number of shares of common stock outstanding and dilutive common stock equivalents. Basic EPS is computed by dividing net income or loss available to common stockholders (numerator) by the weighted average number of shares of common stock outstanding (denominator) during the period. For the six months ended September 30, 2019, the Company had approximately \$1,033,000 in convertible debentures whose approximately 40,717,000 underlying shares are convertible at the holders' option at conversion prices ranging from \$0.01 to \$0.30 for fixed conversion rates, and 34% - 60% of the defined trading price for variable conversion rates and approximately 551,000 warrants with an exercise price of 45% of the market price of the Company's common stock, which were not included in the calculation of diluted EPS as their effect would be anti-dilutive. For the six months ended September 30, 2018, the Company had approximately \$1,296,700 in principal on convertible debentures whose approximately 193,807,000 underlying shares are convertible at the holders' option at conversion prices ranging from 34% - 61% of the defined trading price and approximately 14,537,000 warrants with an exercise price of 50% to 57% of the market price of the Company's common stock, which were not included in the calculation of diluted EPS as their effect would be anti-dilutive.

Fair Value Measurements

ASC Topic 820, "Fair Value Measurement", requires that certain financial instruments be recognized at their fair values at our balance sheet dates. However, other financial instruments, such as debt obligations, are not required to be recognized at their fair values, but GAAP provides an option to elect fair value accounting for these instruments. GAAP requires the disclosure of the fair values of all financial instruments, regardless of whether they are recognized at their fair values or carrying amounts in our balance sheets. For financial instruments recognized at fair value, GAAP requires the disclosure of their fair values by type of instrument, along with other information, including changes in the fair values of certain financial instruments recognized in income or other comprehensive income. For financial instruments not recognized at fair value, the disclosure of their fair values is provided below under "Financial Instruments."

Nonfinancial assets, such as property, plant and equipment, and nonfinancial liabilities are recognized at their carrying amounts in the Company's balance sheets. GAAP does not permit nonfinancial assets and liabilities to be remeasured at their fair values. However, GAAP requires the remeasurement of such assets and liabilities to their fair values upon the occurrence of certain events, such as the impairment of property, plant and equipment. In addition, if such an event occurs, GAAP requires the disclosure of the fair value of the asset or liability along with other information, including the gain or loss recognized in income in the period the remeasurement occurred.

The Company did not have any Level 1 or Level 2 assets and liabilities at September 30, 2019 and March 31, 2019.

The Derivative liabilities are Level 3 fair value measurements.

The following is a summary of activity of Level 3 liabilities during the six months ended September 30, 2019 and 2018:

Derivatives

	<u>2019</u>	<u>2018</u>
Derivative liability balance at beginning of period	\$ 157,000	\$ 3,455,000
Additions to derivative liability for new debt	--	1,724,000
Reclass to equity upon conversion or redemption	--	(1,740,500)
Change in fair value	39,000	(1,328,000)
Balance at end of period	<u>\$ 196,000</u>	<u>\$ 2,110,500</u>

At September 30, 2019, the fair value of the derivative liabilities of convertible notes was estimated using the following weighted-average inputs: the price of the Company's common stock of \$0.17; a risk-free interest rate of 1.88%, and expected volatility of the Company's common stock of 252.90%, and the various estimated reset exercise prices weighted by probability.

At September 30, 2018, the fair value of the derivative liabilities of convertible notes was estimated using the following weighted-average inputs: the price of the Company's common stock of \$0.02; a risk-free interest rate ranging from 1.93% to 2.33%, and expected volatility of the Company's common stock ranging from 248.71% to 321.92%, and the various estimated reset exercise prices weighted by probability.

Warrant liability

	<u>2019</u>	<u>2018</u>
Warrant liability balance at beginning of period	\$ 93,000	\$ 277,000
Reclass to equity upon exercise	-	(150,000)
Change in fair value	-	47,000
Balance at end of period	<u>\$ 93,000</u>	<u>\$ 174,000</u>

At September 30, 2019, the fair value of the warrant liability was estimated using the following weighted-average inputs: the price of the Company's common stock of \$0.17; a risk-free interest rate of 1.71%, and expected volatility of the Company's common stock ranging of 271.83%.

At September 30, 2018, the fair value of the warrant liability was estimated using the following weighted-average inputs: the price of the Company's common stock of \$0.01 a risk-free interest rate of 2.88%, and expected volatility of the Company's common stock of 342.7%.

Financial Instruments

The Company's financial instruments include cash and cash equivalents, receivables, payables, and debt and are accounted for under the provisions of ASC Topic 825, "Financial Instruments". The carrying amount of these financial instruments, with the exception of discounted debt, as reflected in the consolidated balance sheets approximates fair value.

Cash and Cash Equivalents

For the purpose of the consolidated statements of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at September 30, 2019 and March 31, 2019.

Concentration of Credit Risk

The Company maintains cash balances at two financial institution. Accounts at this institution are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. As of September 30, 2019 and March 31, 2019, the Company's cash balances did not exceed FDIC coverage. The Company has not experienced any losses in such accounts and periodically evaluates the credit worthiness of the financial institutions and has determined the credit exposure to be negligible.

Fixed Assets

Equipment is carried at historical value or cost and is depreciated over the estimated useful lives of the related assets. Depreciation on buildings is computed using the straight-line method, while depreciation on all other fixed assets is computed using the Modified Accelerated Cost Recovery System (MACRS) method, which does not materially differ from GAAP. Estimated useful lives are as follows:

Buildings	27.5 – 39 years
Other Depreciable Property	5 – 10 years
Furniture and Fixtures	3 – 10 years

Maintenance and repairs are charged to expense as incurred. At the time of retirement or other disposition of equipment, the cost and accumulated depreciation will be removed from the accounts and the resulting gain or loss, if any, will be reflected in operations.

The consolidated statements of operations reflect depreciation expense of approximately \$25,000 and \$12,000 and \$35,000 and \$18,000 for the three and six months ended September 30, 2019 and 2018, respectively.

Commitments and Contingencies

Certain conditions may exist as of the date the consolidated financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's consolidated financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee would be disclosed.

Recently Issued Accounting Standards

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842) The standard requires all leases that have a term of over 12 months to be recognized on the balance sheet with the liability for lease payments and the corresponding right-of-use asset initially measured at the present value of amounts expected to be paid over the term. Recognition of the costs of these leases on the income statement will be dependent upon their classification as either an operating or a financing lease. Costs of an operating lease will continue to be recognized as a single operating expense on a straight-line basis over the lease term. Costs for a financing lease will be disaggregated and recognized as both an operating expense (for the amortization of the right-of-use asset) and interest expense (for interest on the lease liability). The Company adopted ASU 2016-02 on April 1, 2019, and the adoption resulted in the recognition of a Right of Use Asset ("ROU") and a Lease Liability for a new equipment lease entered into on June 24, 2019 (Note 8).

NOTE 5 – CONVERTIBLE DEBENTURES

September 14, 2018 Debenture

On September 14, 2018, the Company entered into a 12% convertible promissory note for \$112,500, with an OID of \$10,250, which matures on March 14, 2019. There is a right of prepayment in the first 180 days, but there is no right to repay after 180 days. Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. The Company has not maintained the required share reservation under the terms of the note agreement. The Company believes it has sufficient available shares of the Company's common stock in the event of conversion for these notes. The interest rate increases to a default rate of 24% for events as set forth in the agreement, including if the market capitalization is below \$5 million, or there are any dilutive issuances. There is also a cross default provision to all other notes. In the event of default, the outstanding principal balance increases to 150%, and if the Company fails to maintain the required authorized share reserve, the outstanding principal increases to 200%. Additionally, if the Company enters into a 3(a)(9) or 3(a)(10) issuance of shares there are liquidation damages of 25% of principal, not to be below \$15,000. The Company must also obtain the noteholder's written consent before issuing any new debt. Additionally, if the note is not repaid by the maturity date the principal balance increases by \$15,000. The market capitalization is below \$5 million and therefore the note was in default, however, the holder has issued a waiver to the Company on this default provision.

The note is convertible into shares of the Company's common stock at a variable conversion rate that is equal to the lesser of 60% of the lowest trading price for the last 20 days prior to the issuance of the note or 60% of the lowest market price over the 20 days prior to conversion. The conversion price shall be adjusted upon subsequent sales of securities at a price lower than the original conversion price. There are additional 10% adjustments to the conversion price for events set forth in the agreement, including if the conversion price is less than \$0.01, if the Company is not DTC eligible, the Company is no longer a reporting company, or the note cannot be converted into free trading shares on or after nine months from issue date. Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. The conversion feature meets the definition of a derivative and therefore requires bifurcation and is accounted for as a derivative liability.

On December 13, 2018 the holder converted \$11,200 of principal into 4,000,000 shares of common stock of the Company.

On January 25, 2019 the outstanding principal of \$101,550, plus an additional \$56,375 of default principal and \$13,695 in accrued interest of the note was purchased from the noteholder by a third party. The new balance outstanding as of September 30, 2019 is \$171,620.

December 6, 2018 Debenture

On December 6, 2018, the Company entered into a 10% convertible promissory note for \$210,460, which matures on September 6, 2019. During the first 180 days the convertible redeemable note is in effect, the Company may redeem the note at a prepayment percentage of 120% to 130% of the outstanding principal and accrued interest based on the redemption date's passage of time ranging from 60 days to 180 days from the date of issuance of the debenture. Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. In the event of default, as set forth in the agreement, the outstanding principal balance increases to 150%. The Company did not pay the outstanding principal and accrued interest of approximately \$54,000 on the maturity date of September 6, 2019, and therefore the principal was increased by the default penalty of 50%, amounting to approximately \$27,000. In addition to standard events of default, an event of default occurs if the common stock of the Company shall lose the "bid" price for its Common Stock, on trading markets, including the OTCBB, OTCQB or an equivalent replacement exchange. If the Company enters into a 3(a)(9) or 3(a)(10) issuance of shares there are liquidation damages of 25% of principal, not to be below \$15,000. The Company must also obtain the noteholder's written consent before issuing any new debt. The note is convertible at a fixed conversion price of \$0.01. If an event of default occurs, the fixed conversion price is extinguished and replaced by a variable conversion rate that is 70% of the lowest trading prices during the 20 days prior to conversion. The fixed conversion price shall reset upon any future dilutive issuance of shares, options or convertible securities. The conversion feature at issuance meets the definition of conventional convertible debt and therefore qualifies for the scope exception in Accounting Standards Codification ("ASC") 815-10-15-74(a) and would not be bifurcated and accounted for separately as a derivative liability. The Company analyzed the conversion feature under ASC 470-20, "Debt with conversion and other options", and based on the market price of the common stock of the Company on the date of funding as compared to the conversion price, determined there was a \$136,799 beneficial conversion feature to recognize, which will be amortized over the term of the note using the effective interest method. The amortization expense recognized during the three and six months ended September 30, 2019 amounted to approximately \$46,000 and \$91,000, respectively.

On June 27, 2019 the holder converted \$30,000 of principal into 3,000,000 shares of common stock of the Company. On three occasions during the three months ended September 30, 2019, the holder converted \$140,000 of principal into 14,000,000 shares of common stock of the Company. The note was fully converted subsequent to September 30, 2019 (see Note 10).

On December 31, 2018, the Company entered into a 10% convertible promissory note for \$135,910, which matures on September 30, 2019. The maturity date has been extended to March 1, 2020. During the first 180 days the convertible redeemable note is in effect, the Company may redeem the note at a prepayment percentage of 120% to 130% of the outstanding principal and accrued interest based on the redemption date's passage of time ranging from 60 days to 180 days from the date of issuance of the debenture. Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. In the event of default, as set forth in the agreement, the outstanding principal balance increases to 150%. In addition to standard events of default, an event of default occurs if the common stock of the Company shall lose the "bid" price for its Common Stock, on trading markets, including the OTCBB, OTCQB or an equivalent replacement exchange. If the Company enters into a 3(a)(9) or 3(a)(10) issuance of shares there are liquidation damages of 25% of principal, not to be below \$15,000. The Company must also obtain the noteholder's written consent before issuing any new debt. The note is convertible at a fixed conversion price of \$0.01. If an event of default occurs, the fixed conversion price is extinguished and replaced by a variable conversion rate that is 70% of the lowest trading prices during the 20 days prior to conversion. The fixed conversion price shall reset upon any future dilutive issuance of shares, options or convertible securities. The conversion feature at issuance meets the definition of conventional convertible debt and therefore qualifies for the scope exception in Accounting Standards Codification ("ASC") 815-10-15-74(a) and would not be bifurcated and accounted for separately as a derivative liability. The Company analyzed the conversion feature under ASC 470-20, "Debt with conversion and other options", and based on the market price of the common stock of the Company on the date of funding as compared to the conversion price, determined there was a \$88,342 beneficial conversion feature to recognize, which will be amortized over the term of the note using the effective interest method. The amortization expense recognized during the three and six months ended September 30, 2019 amounted to approximately \$29,000 and \$59,000, respectively.

Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. NOTE 6 – STOCKHOLDERS' DEFICIT

Preferred Stock

As of September 30, 2019 and March 31, 2019, the Company had 200,000,000 shares of preferred stock authorized with a par value of \$0.0001. Of this amount, 5,000,000 shares Series A preferred stock are authorized and outstanding.

On September 5, 2019, the Board authorized the issuance of 5,000 preferred shares to be designated as Series B Preferred Stock ("Series B PS"). The Series B PS have a par value of \$0.0001, a stated value of \$1,200 and no voting rights. The Series B PS are redeemable at the Company's option, at percentages ranging from 120% to 135% for the first 180 days, based on the passage of time. The Series B are also redeemable at the holder's option, upon the occurrence of a triggering event which includes a change of control, bankruptcy, and the inability to deliver Series B PS requested under conversion notices. The triggering redemption amount is at the greater of (i) 135% of the stated value or (ii) the product of the volume-weighted average price ("VWAP") on the day preceding the triggering event multiplied by the stated value divided by the conversion price. As the redemption feature at the holder's option is contingent on a future triggering event, the Series B PS is considered contingently redeemable, and as such the preferred shares are classified in equity until such time as a triggering event occurs, at which time they will be classified as mezzanine.

The Series B PS is convertible, at the discounted market price which is defined as the lowest VWAP over last 20 days. The conversion price is adjustable based on several situations, including future dilutive issuances. As the Series B PS does not have a redemption date and is perpetual preferred stock, it is considered to be an equity host instrument and as such the conversion feature is not required to be bifurcated as it is clearly and closely related to the equity host instrument.

Series B Preferred Equity Offering

On September 17, 2019, the Company entered into a Securities Purchase Agreement ("SPA") with GHS Investments LLC, a Nevada limited liability company ("GHS") for the purchase of up to 5,000 shares of Series B PS at a stated value of \$1,200 per share, or for a total net proceeds of \$5,000,000 in the event the entire 5,000 shares of Series B PS are purchased. On September 17, 2019, the Company received an initial tranche of \$250,000 under the SPA.

Equity Financing Agreement 2019

On August 23, 2019, the Company entered into a new Equity Financing Agreement ("Equity Financing Agreement") and Registration Rights Agreement ("Registration Rights Agreement") with GHS. Under the terms of the Equity Financing Agreement, GHS agreed to provide the Company with up to \$11,000,000 upon effectiveness of a registration statement on Form S-1 (the "Registration Statement") filed with the U.S. Securities and Exchange Commission (the "Commission").

Following effectiveness of the Registration Statement, the Company shall have the discretion to deliver puts to GHS and GHS will be obligated to purchase shares of the Company's common stock, based on the investment amount specified in each put notice. The maximum amount that the Company shall be entitled to put to GHS in each put notice shall not exceed two hundred percent (200%) of the average daily trading dollar volume of the Company's Common Stock during the ten (10) trading days preceding the put, so long as such amount does not exceed \$500,000. Pursuant to the Equity Financing Agreement, GHS and its affiliates will not be permitted to purchase and the Company may not put shares of the Company's Common Stock to GHS that would result in GHS's beneficial ownership equaling more than 4.99% of the Company's outstanding Common Stock. The price of each put share shall be equal to eighty percent (80%) of the Market Price (as defined in the Equity Financing Agreement). Puts may be delivered by the Company to GHS until the earlier of thirty-six (36) months after the effectiveness of the Registration Statement or the date on which GHS has purchased an aggregate of \$11,000,000 worth of Common Stock under the terms of the Equity Financing Agreement.

The Registration Rights Agreement provides that the Company shall (i) use its best efforts to file with the Commission the Registration Statement within 30 days of the date of the Registration Rights Agreement; and (ii) have the Registration Statement declared effective by the Commission within 30 days after the date the Registration Statement is filed with the Commission, but in no event more than 90 days after the Registration Statement is filed. The Registration Statement was filed on October 8, 2019 and as of this filing has not yet been deemed effective.

Equity Financing Agreement 2018

On August 21, 2018, the Company entered into the first Equity Financing Agreement and Registration Rights Agreement with GHS. Under the terms of the first Equity Financing Agreement, GHS agreed to provide the Company with up to \$7,000,000 upon effectiveness of a registration statement on Form S-1 filed with the U.S. Securities and Exchange Commission. The registration statement was filed and deemed effective on September 19, 2018.

Following effectiveness of the first registration statement, the Company had the discretion to deliver puts to GHS and GHS was obligated to purchase shares of the Company's common stock, par value \$0.0001 per share (the "Common Stock") based on the investment amount specified in each put notice. The maximum amount that the Company was entitled to put to GHS in each put notice was not to exceed two hundred percent (200%) of the average daily trading dollar volume of the Company's Common Stock during the ten (10) trading days preceding the put, so long as such amount did not exceed \$300,000. Pursuant to the first Equity Financing Agreement, GHS and its affiliates will not be permitted to purchase, and the Company may not put shares of the Company's Common Stock to GHS that would result in GHS's beneficial ownership equaling more than 9.99% of the Company's outstanding Common Stock. The price of each put share was to be equal to eighty percent (80%) of the Market Price (as defined in the Equity Financing Agreement). Puts may be delivered by the Company to GHS until the earlier of thirty-six (36) months after the effectiveness of the Registration Statement or the date on which GHS has purchased an aggregate of \$7,000,000 worth of Common Stock under the terms of the Equity Financing Agreement.

During the three months ended June 30, 2019, the Company put to GHS for the issuance of 11,482,721 shares of common stock for a total of \$1,500,000. On July 2, 2019, the Company put to GHS for the issuance of 3,261,925 shares of common stock, at \$0.09, for a total of \$274,000.

The lease term is for five years, with a renewal option of an additional five years, with a monthly lease payment of \$5,000. The Company analyzed the classification of the lease under ASC 842, and as it did not meet any of the criteria for a financing lease it has been classified as an operating lease. The Company determined the Right of Use asset and Lease liability values at inception calculated at the present value of all future lease payments for the lease term, using an incremental borrowing rate of 5%. The Lease Liability will be expensed each month, on a straight line basis, over the life of the lease.

For the three and six months ended September 30, 2019 the lease expense was \$15,000, and the amortization of the Right of Use asset was \$11,558.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

Executive Employment Agreements – Bill Williams and Gerald Easterling

On April 1, 2015, the Company entered into employment agreements with each of Bill G. Williams, as the Company's Chief Executive Officer, and Gerald Easterling as the Company's President, effective as of April 1, 2015 (the "Employment Agreements").

The Employment Agreements are each terminable at will and each provide for a base annual salary of \$96,000. In addition, the Employment Agreements each provide that the employee is entitled, at the sole and absolute discretion of the Company's Board of Directors, to receive performance bonuses. Each employee will also be entitled to certain benefits including health insurance and monthly allowances for cell phone and automobile expenses.

Each Employment Agreement provides that in the event employee is terminated without cause or resigns for good reason (each as defined in their Employment Agreements), the employee will receive, as severance the employee's base salary for a period of 60 months following the date of termination. In the event of a change of control of the Company, the employee may elect to terminate the Employment Agreement within 30 days thereafter and upon such termination would receive a lump sum payment equal to 500% of the employee's base salary.

Each Employment Agreement contains certain restrictive covenants relating to non-competition, non-solicitation of customers and non-solicitation of employees for a period of one year following termination of the employee's Employment Agreement.

On August 15, 2019, Mr. Bill Williams resigned from his position as Chairman of the Board and Chief Executive Officer of the Company, effective August 31, 2019. A separation agreement is currently being negotiated.

On April 30, 2019, a complaint was filed against the Company in the U.S. District Court in Dallas, Texas alleging that the Company breached a provision in a common stock purchase warrant (the "Vista Warrant") issued by the Company to Vista Capital Investments, LLC ("Vista"). Vista alleges that the Company failed to issue certain shares of the Company's common stock as was required under the terms of the Vista Warrant. Vista is currently seeking money damages in the approximate amount of \$7,000,000, which the Company believes is unwarranted and excessive, as well as costs and reimbursement of expenses. As of the date hereof, no hearing has been scheduled, but the Company is vigorously defending itself against these claims, preparing a counter-claim against Vista and taking such other appropriate action, in addition to seeking for other costs and relief as may be appropriate. The Company is currently in discussions with Vista and has accrued \$50,000 for the settlement of this complaint, which is recognized as "loss on warrant settlement" on the accompanying Statement of Operations in the six months ended September 30, 2019.

Contingent Events

On August 5, 2019, the Company received a formal notice from the Texas Parks and Wildlife Department for the Company's facility in La Coste, Texas due to the detection of IHNV, a viral disease of Pacific white shrimp, from two Postlarvae ("PL") shipments from the Company's Texas hatchery supplier in March and April of this year. At the time of receipts of such shipments from the hatchery in March and April, the Company was notified by its supplier that the shipments were virus free. Based on the Company's quality control procedures during the course of the shrimp farming process in the Company's tanks and, in this case the slower than normal growth rate indicating possible compromise, the Company undertook to have lots independently tested by the University of Arizona Pathology Laboratory in Tucson. Based on those tests, IHNV was detected and the Company's facility was placed under quarantine until further notice by Texas Parks and Wildlife Department and the United States Department of Agriculture/Animal and Plant Health Inspection Service. Such quarantine notice also imposes no discharge of any culture water to state waters (creeks, rivers, streams, bays) and no sales of any shrimp until further notice. The Company's system of tanks prevents crossover contamination in order to quickly begin restocking of PL shrimp from a different hatchery beginning in August in different tanks. Such orders have been placed and are expected to be placed into production as soon as inspection is passed and the quarantine has been lifted. Furthermore, the Company has enhanced its system to include nursery tanks that will allow the Company to evaluate the health of the shrimp through much earlier testing in its quality control process. While the Company expects to incur costs associated with the proper disposal of such batches, it does not expect it to be material. Furthermore, the Company expects that it will also recover certain of these costs from its Texas hatchery supplier.

NOTE 10 – SUBSEQUENT EVENTS

Sale of Series B PS

Subsequent to period end, on October 4, 2019, and October 18, 2019, the Company received further tranches of \$250,000 each under the SPA.

Issuance of Common Stock under Convertible Notes

Subsequent to September 30, 2019, the GHS December 6, 2018 debenture was fully converted into 8,420,477 shares of the Company's common stock.

("NS Global") and Natural Aquatic Systems, Inc. Unless otherwise specified, all dollar amounts are expressed in United States dollars.

Corporate History

We were incorporated in the State of Nevada on July 3, 2008 under the name “Multiplayer Online Dragon, Inc.” Effective November 5, 2010, we effected an 8-for-1 forward stock split, increasing the issued and outstanding shares of our common stock from 12,000,000 shares to 96,000,000 shares. On October 29, 2014, we effected a 1-for-10 reverse stock split, decreasing the issued and outstanding shares of our common stock from 97,000,000 to 9,700,000.

On November 26, 2014, we entered into an Asset Purchase Agreement (the “Agreement”) with NaturalShrimp Holdings, Inc. a Delaware corporation (“NSH”), pursuant to which we agreed to acquire substantially all of the assets of NSH which assets consisted primarily of all of the issued and outstanding shares of capital stock of NSC and NS Global, and certain real property located outside of San Antonio, Texas (the “Assets”).

On January 30, 2015, we consummated the acquisition of the Assets pursuant to the Agreement. In accordance with the terms of the Agreement, we issued 75,520,240 shares of our common stock to NSH as consideration for the Assets. As a result of the transaction, NSH acquired 88.62% of our issued and outstanding shares of common stock; NSC and NS Global became our wholly-owned subsidiaries, and we changed our principal business to a global shrimp farming company.

In connection with our receipt of approval from the Financial Industry Regulatory Authority (“FINRA”), effective March 3, 2015, we amended our Articles of Incorporation to change our name to “NaturalShrimp Incorporated.”

Business Overview

We are a biotechnology company and have developed a proprietary technology that allows us to grow Pacific White shrimp (*Litopenaeus vannamei*, formerly *Penaeus vannamei*) in an ecologically controlled, high-density, low-cost environment, and in fully contained and independent production facilities. Our system uses technology which allows us to produce a naturally-grown shrimp “crop” weekly, and accomplishes this without the use of antibiotics or toxic chemicals. We have developed several proprietary technology assets, including a knowledge base that allows us to produce commercial quantities of shrimp in a closed system with a computer monitoring system that automates, monitors and maintains proper levels of oxygen, salinity and temperature for optimal shrimp production. Our initial production facility is located outside of San Antonio, Texas.

NS Global, one of our wholly-owned subsidiaries, owns less than 1% of NaturalShrimp International A.S. in Europe. Our European-based partner, NaturalShrimp International A.S., Oslo, Norway, is responsible for the construction cost of its facility and initial operating capital.

The first facility built in Spain for NaturalShrimp International A.S. is GambaNatural de España, S.L. The land for the first facility was purchased in Medina del Campo, Spain, and construction of the 75,000 sq. ft. facility was completed in 2016. Medina del Campo is approximately seventy-five miles northwest of Madrid, Spain.

On October 16, 2015, we formed Natural Aquatic Systems, Inc. (“NAS”). The purpose of the NAS is to formalize the business relationship between our Company and F&T Water Solutions LLC for the joint development of certain water technologies. The technologies shall include, without limitation, any and all inventions, patents, intellectual property and know-how dealing with enclosed aquatic production systems worldwide. This includes construction, operation, and management of enclosed aquatic production, other than shrimp, facilities throughout the world, co-developed by both parties at our facility located outside of La Coste, Texas. On December 25, 2018, we were awarded U.S. Patent “Recirculating Aquaculture System and Treatment Method for Aquatic Species” covering all indoor aquatic species that utilizes proprietary art.

The Company has three wholly-owned subsidiaries, including NSC, NS Global and NAS.

Evolution of Technology and Revenue Expectations

Historically, efforts to raise shrimp in a high-density, closed system at the commercial level have been met with either modest success or outright failure through “BioFloc Technology.” Infectious agents such as parasites, bacteria and viruses are the most damaging and most difficult to control. Bacterial infection can in some cases be combated through the use of antibiotics (although not always), and in general, the use of antibiotics is considered undesirable and counter to “green” cultivation practices. Viruses can be even worse, in that they are immune to antibiotics. Once introduced to a shrimp population, viruses can wipe out entire farms and shrimp populations, even with intense probiotic applications.

Our primary solution against infectious agents is our “Vibrio Suppression Technology.” We believe this system creates higher sustainable densities, consistent production, improved growth and survival rates and improved food conversion without the use of antibiotics, probiotics or unhealthy anti-microbial chemicals. Vibrio Suppression Technology helps to exclude and suppress harmful organisms that usually destroy “BioFloc” and other enclosed technologies.

In 2001, we began research and development of a high density, natural aquaculture system that is not dependent on ocean water to provide quality, fresh shrimp every week, fifty-two weeks a year. Our initial system was successful, but we determined that it would not be economically feasible due to high operating costs. Over the next several years, using the knowledge we gained from developing the first system, we developed a shrimp production system that eliminated the high costs associated with the previous system. We have continued to refine this technology, eliminating bacteria and other problems that affect enclosed systems, and now have a successful shrimp growing process. We have produced thousands of pounds of shrimp over the last few years in order to develop a design that will consistently produce quality shrimp that grow to a large size at a specific rate of growth. This included experimenting with various types of natural live and synthesized feed supplies before selecting the most appropriate nutritious and reliable combination. It also included utilizing monitoring and control automation equipment to minimize labor costs and to provide the necessary oversight for proper regulation of the shrimp environment. However, there were further enhancements needed to our process and technology in order to begin production of shrimp on a commercially viable scale and to generate revenues.

Our current system consists of a reception tank where the shrimp are acclimated, then moved to a larger grow-out tank for the rest of the twenty-four week cycle. During 2016, we engaged in additional engineering projects with third parties to further enhance our indoor production capabilities. For example, through our relationship with Trane, Inc., a division of Ingersoll-Rand Plc (“Trane”), Trane has provided a detailed audit to use data to build and verify the capabilities of then initial Phase 1 prototype of a Trane-proposed three tank system at our La Coste, Texas facility. The Company contracted F&T Water Solutions and RGA Labs, Inc. (“RGA Labs”) to complete final engineering and building of the initial patent-pending modified Electrocoagulation system for the grow-out, harvesting and processing of fully mature, antibiotic-free Pacific White Leg shrimp. The design will present a viable pathway to begin generating revenue and producing shrimp on a commercially viable scale. The design is completed and was installed in early June 2018 by RGA Labs, and final financing for the system is expected to be provided by one of the Company’s existing intuitional investors. The first post larvae (PL) arrived from the hatchery on July 3, 2018. The Company used the shrimp for sampling to key potential customers and special events such as the Texas Restaurant Association trade show. The Company also received two production PL lots from Global Blue Technologies on March 21, 2019 and April 17, 2019 and from American Penacid, Inc. on August 7, 2019. Because the shrimp displayed growth that was slower than normal, the Company had a batch tested by an independent lab at the University of Arizona. The shrimp tested positive for Infectious hypodermal and hematopoietic necrosis (“IHHNV”) and the Texas Parks and Wildlife Department was notified that the facility was under quarantine. On August 26, 2019, the Company was forced to terminate all lots due to the infection. The Company will begin restocking on shrimp in the refurbished facility sections. On August 30, 2019, the Company received notice that it was in compliance again and the quarantine had been lifted. During the aforementioned quarantine, the Company decided to begin an approximately \$1,000,000 facility renovation demolishing the interior 16 wood structure lined tanks (720,000 gallons). The Company would be replacing the previous tanks with 40 new fiberglass tanks (600,000 gallons) at a cost of approximately \$400,000 allowing complete production flexibility with more smaller tanks. The Company expects that the first shrimp tanks harvest target date will be April 2020.

In order to solidify the existing facility production process, the Company has purchased eight electrocoagulation units from F&T Water Solutions for a combined purchase and installation price of approximately \$700,000.

On June 9, 2019, the Company and Natural Aquatic Systems (a subsidiary of NaturalShrimp, Inc.) entered into an agreement for an exclusive right to use the proprietary technology controlled by Hydrenesis Aquaculture, LLC. Subsequently, on June 30, 2019 there was an amendment to the aforementioned agreements to extend certain marketing and use rights internationally.

Recent Developments During the Three Months Ended September 30, 2019

On August 5, 2019, the Company received a formal notice from the Texas Parks and Wildlife Department for the Company’s facility in La Coste, Texas due to the detection of IHHNV, a viral disease of Pacific white shrimp, from two Postlarvae (“PL”) shipments from the Company’s Texas hatchery supplier in March and April of this year. At the time of receipts of such shipments from the hatchery in March and April, the Company was notified by its supplier that the shipments were virus free. Based on the Company’s quality control procedures during the course of the shrimp farming process in the Company’s tanks and, in this case the slower than normal growth rate indicating possible compromise, the Company undertook to have lots independently tested by the University of Arizona Pathology Laboratory in Tucson. Based on those tests, IHHNV was detected and the Company’s facility was placed under quarantine until further notice by Texas Parks and Wildlife Department and the United States Department of Agriculture/Animal and Plant Health Inspection Service. Such quarantine notice also imposes no discharge of any culture water to state waters (creeks, rivers, streams, bays) and no sales of any shrimp until further notice. The Company’s system of tanks prevents crossover contamination in order to quickly begin restocking of PL shrimp from a different hatchery beginning in August in different tanks. Such orders have been placed and are expected to be placed into production as soon as inspection is passed and the quarantine has been lifted. Furthermore, the Company has enhanced its system to include nursery tanks that will allow the Company to evaluate the health of the shrimp through much earlier testing in its quality control process. While the Company expects to incur costs associated with the proper disposal of such batches, it does not expect it to be material. Furthermore, the Company expects that it will also recover certain of these costs from its Texas hatchery supplier.

On September 9, 2019, the Company’s Board of Directors appointed Mr. Tom Untermeyer as Chief Operating Officer. Mr. Untermeyer is a co-founder of NSH, has served as an engineering consultant to NSH since 2001, and is the Company’s Chief Technology Officer. Mr. Untermeyer holds a Bachelor of Science in electrical engineering from St. Mary’s University. Mr. Untermeyer is the inventor of the initial technology behind the computer-controlled shrimp-raising system used by the Company.

Comparison of the Three Months Ended September 30, 2019 to the Three Months Ended September 30, 2018

Revenue

We have not earned any significant revenues since our inception and, although we expect revenues to begin in six to nine months, we do not expect them to be significant at that time.

Expenses

Our expenses for the three months ended September 30, 2019 are summarized as follows, in comparison to our expenses for the three months ended September 30, 2018:

	Three Months Ended September 30,	
	2019	2018
Facility operations	\$ 15,035	\$ 22,978
Salaries and related expenses	118,022	101,223
Rent	3,746	2,749
Professional fees	88,815	63,939
Other general and administrative expenses	167,788	39,031
Depreciation	13,319	17,719
Total	<u>\$ 406,725</u>	<u>\$ 247,639</u>

Operating expenses for the three months ended September 30, 2019 were \$406,725, representing an increase of 64.2% compared to operating expenses of \$247,639 for the same period in 2018. The overall increase in expenses is mainly due to the Company progressing with their testing and planning to begin commercial operations, which resulted in a ramp up of costs, including increases for employees and related costs, consultants, travel costs, as well as property tax payments which include prior years. Depreciation expense decreased slightly as many of the fixed assets currently in use have become fully depreciated, and the fixed assets related to the facility are still in construction in progress and depreciation has not yet begun on these assets.

Comparison of the Six Months Ended September 30, 2019 to the Six Months Ended September 30, 2018

Revenue

We have not earned any significant revenues since our inception and, although we expect revenues to begin in six to nine months, we do not expect them to be significant at that time.

Expenses

Our expenses for the six months ended September 30, 2019 are summarized as follows, in comparison to our expenses for the six months ended September 30, 2018:

	Six Months Ended September 30,	
	2019	2018
Facility operations	\$ 139,559	\$ 43,963
Salaries and related expenses	227,532	205,165
Rent	7,812	6,030
Professional fees	149,611	122,943
Other general and administrative expenses	252,782	95,830
Depreciation	25,563	35,445
Total	<u>\$ 802,859</u>	<u>\$ 509,376</u>

Operating expenses for the six months ended September 30, 2019 were \$802,859, representing an increase of 57.6% compared to operating expenses of \$509,376 for the same period in 2018. The overall increase in expenses is mainly the result an increase in facility operations, as well as increases in salaries and general and administrative costs, as the Company is progressing with their testing and planning to begin commercial operations, and has engaged new employees and consultants and there has been a related increase in maintenance and repairs. Depreciation expense decreased as many of the fixed assets currently in use have become fully depreciated, and the fixed assets related to the facility are still in construction in progress and depreciation has not yet begun on these assets.

Liquidity, Financial Condition and Capital Resources

As of September 30, 2019, we had cash on hand of approximately \$283,000 and a working capital deficiency of approximately \$4,562,000 as compared to cash on hand of approximately \$137,000 and a working capital deficiency of approximately \$3,773,000 as of March 31, 2019. The increase in working capital deficiency for the three months ended September 30, 2019 is mainly due to the increase in cash on hand in current assets, increases in accounts payable and accrued expenses and an increase in the current maturity of the bank loan, discussed in further detail below, in current liabilities.

Working Capital Deficiency

Our working capital deficiency as of September 30, 2019, in comparison to our working capital deficiency as of March 31, 2019, can be summarized as follows:

	September 30, 2019	March 31, 2019
Current assets	\$ 397,254	\$ 178,685
Current liabilities	4,959,336	3,951,811
Working capital deficiency	<u>\$ 4,563,082</u>	<u>\$ 3,773,126</u>

The increase in current assets is mainly due to the increase of approximately \$219,000 in cash on hand, which is a result of the cash received in funding through the equity financing agreement and new convertible debentures. The increase in current liabilities is primarily due to the entire balance of the bank loan and lines of credit now being current, as the outstanding balances are now due April 2020 or prior. Additionally, there is an increase of approximately \$290,000 in the convertible debenture balance due to the new convertible debenture and the amortization of the existing debt discounts.

Cash Flows

Our cash flows for the six months ended September 30, 2019, in comparison to our cash flows for the three months ended September 30, 2018, can be summarized as follows:

	Six Months Ended September 30,	
	2019	2018
Net cash used in operating activities	\$ (983,303)	\$ (402,798)
Net cash used in investing activities	(754,501)	(81,777)
Net cash provided by financing activities	1,883,547	465,170
Net change in cash	<u>\$ 145,743</u>	<u>\$ (19,405)</u>

The increase in net cash used in operating activities in the six months ended September 30, 2019, compared to the same period in 2018, mainly relates to the approximate \$293,000 increase in the net loss for the period as compared to the same period in the prior fiscal year, and the decrease in the gain on the change in fair value of the derivative of approximately \$1,367,000 due to the reduced amounts of convertible debt whose conversion features were required to be bifurcated and recognized as derivative liability, as well as the expenses in the prior year for the excess financing costs related to the convertible debentures of approximately \$1,284,000 and the change in fair value of the warrant liability of \$47,000, which do not occur in the current period.

The net cash used in investing activities in the three months ended September 30, 2019 included an increase in costs paid on construction in process on the new facility as compared to the same period in 2018, and the purchase of some machinery and equipment.

The net cash provided by financing activities increased between periods, with the increased cash provided by financing activities primarily arising from the additional proceeds received from the equity financing agreement of \$1,774,000 during the six months ended September 30, 2019, offset by a decrease in proceeds for new convertible debentures during fiscal 2019 as compared to fiscal 2018 and by payments made on the convertible debt with related party, and the credit line in fiscal 2019.

Our cash position was approximately \$283,000 as of September 30, 2019. Management believes that our cash on hand and working capital are not sufficient to meet our current anticipated cash requirements for the next twelve months, as described in further detail under the section titled "Going Concern" below.

Recent Financing Arrangements and Developments During the Period

Short-Term Debt and Lines of Credit

On November 3, 2015, the Company entered into a short-term note agreement with Community National Bank for a total value of \$50,000. The short-term note had a stated interest rate of 5.25%, maturity date of December 15, 2017 and had an initial interest only payment on February 3, 2016. Per the agreement, the Company is required at all times to have authorized and reserved three times the number of shares that is actually issuable upon full conversion of the note. In the event of default, as set forth in the agreement, the outstanding principal balance increases to 150%. The Company did not pay the outstanding principal and accrued interest of approximately \$54,000 on the maturity date of September 6, 2019, and therefore the principal was increased by the default penalty of 50%, amounting to approximately \$27,000. In addition to standard events of default, an event of default occurs if the common stock of the Company shall lose the "bid" price for its Common Stock, on trading markets, including the OTCBB, OTCQB or an equivalent replacement exchange. If the Company enters into a 3(a)(9) or 3(a)(10) issuance of shares there are liquidation damages of 25% of principal, not to be below \$15,000. On August 6, 2019, the Company exercised its option to redeem the February 4, 2019 debenture, for a redemption price of approximately \$132,000. During the six months ended September 30, 2019, the Company issued 17,000,000 shares of the Company's common stock upon conversion of \$170,000 of their outstanding convertible debt and accrued interest.

Equity Financing Agreement

On August 21, 2018, the Company entered into an Equity Financing Agreement (“Equity Financing Agreement”) and Registration Rights Agreement (“Registration Rights Agreement”) with GHS Investments LLC, a Nevada limited liability company (“GHS”). Under the terms of the Equity Financing Agreement, GHS agreed to provide the Company with up to \$7,000,000 upon effectiveness of a registration statement on Form S-1 (the “Registration Statement”) filed with the U.S. Securities and Exchange Commission (the “Commission”). The Registration Statement was filed, and deemed effective on September 19, 2018.

Following effectiveness of the Registration Statement, the Company has the discretion to deliver puts to GHS and GHS will be obligated to purchase shares of the Company’s common stock, par value \$0.0001 per share (the “Common Stock”) based on the investment amount specified in each put notice. The maximum amount that the Company shall be entitled to put to GHS in each put notice shall not exceed two hundred percent (200%) of the average daily trading dollar volume of the Company’s Common Stock during the ten (10) trading days preceding the put, so long as such amount does not exceed \$300,000. Pursuant to the Equity Financing Agreement, GHS and its affiliates will not be permitted to purchase and the Company may not put shares of the Company’s Common Stock to GHS that would result in GHS’s beneficial ownership equaling more than 9.99% of the Company’s outstanding Common Stock. The price of each put share shall be equal to eighty percent (80%) of the Market Price (as defined in the Equity Financing Agreement). Puts may be delivered by the Company to GHS until the earlier of thirty-six (36) months after the effectiveness of the Registration Statement or the date on which GHS has purchased an aggregate of \$7,000,000 worth of Common Stock under the terms of the Equity Financing Agreement. Additionally, in accordance with the Equity Financing Agreement, the Company shall issue GHS a promissory note in the principal amount of \$15,000 to offset transaction costs (the “Note”). The Note bears interest at the rate of 8% per annum, is not convertible and is due 180 days from the issuance date of the Note. Through the year ended March 31, 2019, the Company put to GHS for the issuance of approximately 22,132,000 shares of common stock, for a total of approximately \$465,000.

During the six months ended September 30, 2019, the Company put to GHS for the issuance of 14,744,646 shares of common stock for a total of \$1,774,000.

Series B Preferred Equity Offering

On September 5, 2019, the Board authorized the issuance of 5,000 preferred shares to be designated as Series B Preferred Stock. The Series B PS have a par value of \$0.0001, a stated value of \$1,200 and no voting rights. The Series B PS are redeemable at the Company’s option, at percentages ranging from 120% to 135% for the first 180 days, based on the passage of time. The Series B are also redeemable at the holder’s option, upon the occurrence of a triggering event which includes a change of control, bankruptcy, and the inability to deliver Series B PS requested under conversion notices. The triggering redemption amount is at the greater of (i) 135% of the stated value or (ii) the product of the volume-weighted average price (“VWAP”) on the day preceding the triggering event multiplied by the stated value divided by the conversion price. As the redemption feature at the holder’s option is contingent on a future triggering event, the Series B PS is considered contingently redeemable, and as such the preferred shares are classified in equity until such time as a triggering event occurs, at which time they will be classified as mezzanine.

The Series B PS is convertible, at the discounted market price which is defined as the lowest VWAP over last 20 days. The conversion price is adjustable based on several situations, including future dilutive issuances. As the Series B PS does not have a redemption date and is perpetual preferred stock, it is considered to be an equity host instrument and as such the conversion feature is not required to be bifurcated as it is clearly and closely related to the equity host instrument.

On September 17, 2019, the Company entered into a Securities Purchase Agreement with GHS for the purchase of up to 5,000 shares of Series B PS at a stated value of \$1,200 per share, or for a total net proceeds of \$5,000,000 in the event the entire 5000 shares of Series B PS are purchased. On September 17, 2019, the Company received an initial tranche of \$250,000 under the SPA.

Shareholder Note Payable

On April 20, 2017, the Company issued an additional Six Percent (6%) Unsecured Convertible Note to Dragon Acquisitions in the principal amount of \$140,000. The note accrues interest at the rate of six percent (6%) per annum, and matures one (1) year from the date of issuance. Upon an event of default, the default interest rate will be increased to twenty-four percent (24%), and the total amount of principal and accrued interest shall become immediately due and payable at the holder’s discretion. The note is convertible into shares of the Company’s common stock at a conversion price of \$0.30 per share, subject to adjustment. As of September 30, 2019, the Company has paid \$99,400 on this note, with \$40,600 remaining outstanding as of March 31, 2019.

Going Concern

The audited consolidated financial statements contained in this annual report on Form 10-K have been prepared, assuming that the Company will continue as a going concern. The Company has accumulated losses through the period to September 30, 2019 of approximately \$42,875,000 as well as negative cash flows from operating activities of approximately \$983,000. Presently, the Company does not have sufficient cash resources to meet its plans in the twelve months following September 30, 2019. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is in the process of evaluating various financing alternatives in order to finance the continued build-out of our equipment and for general and administrative expenses. These alternatives include raising funds through public or private equity markets and either through institutional or retail investors. Although there is no assurance that the Company will be successful with our fund raising initiatives, management believes that the Company will be able to secure the necessary financing as a result of ongoing financing discussions with third party investors and existing shareholders.

The consolidated financial statements do not include any adjustments that may be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to obtain additional financing as may be required and ultimately to attain profitability. If the Company raises additional funds through the issuance of equity, the percentage ownership of current shareholders could be reduced, and such securities might have rights, preferences or privileges senior to the rights, preferences and privileges of the Company's common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, the Company may not be able to take advantage of prospective business endeavors or opportunities, which could significantly and materially restrict its future plans for developing its business and achieving commercial revenues. If the Company is unable to obtain the necessary capital, the Company may have to cease operations.

Future Financing

We will require additional funds to implement our growth strategy for our business. In addition, while we have received capital from various private placements that have enabled us to fund our operations, these funds have been largely used to develop our processes, although additional funds are needed for other corporate operational and working capital purposes. Subsequent to period end we have raised \$750,000 from the sale of Series B Preferred shares of .. However, not including funds needed for capital expenditures or to pay down existing debt and trade payables, we anticipate that we will need to raise an additional \$2,500,000 to cover all of our operational expenses over the next 12 months, not including any capital expenditures needed as part of any commercial scale-up of our equipment. These funds may be raised through equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares. There can be no assurance that additional financing will be available to us when needed or, if available, that such financing can be obtained on commercially reasonable terms. If we are not able to obtain the additional necessary financing on a timely basis, or if we are unable to generate significant revenues from operations, we will not be able to meet our other obligations as they become due, and we will be forced to scale down or perhaps even cease our operations.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Effects of Inflation

We do not believe that inflation has had a material impact on our business, revenues or operating results during the periods presented.

Critical Accounting Policies and Estimates

Our significant accounting policies are more fully described in the notes to our financial statements included in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the fiscal year ended March 31, 2019. We believe that the accounting policies below are critical for one to fully understand and evaluate our financial condition and results of operations.

Fair Value Measurement

The fair value measurement guidance clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in the valuation of an asset or liability. It establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the fair value measurement guidance are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;

Level 2 - Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; or

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The Company did not have any Level 1 or Level 2 assets and liabilities at September 30, 2019 and March 31, 2019.

The Derivative and warrant liabilities are Level 3 fair value measurements.

Basic and Diluted Earnings/Loss per Common Share

Basic and diluted earnings or loss per share ("EPS") amounts in the consolidated financial statements are computed in accordance with ASC 260 – 10 "Earnings per Share", which establishes the requirements for presenting EPS. Basic EPS is based on the weighted average number of shares of common stock outstanding. Diluted EPS is based on the weighted average number of shares of common stock outstanding and dilutive common stock equivalents. Basic EPS is computed by dividing net income or loss available to common stockholders (numerator) by the weighted average number of shares of common stock outstanding (denominator) during the period. For the six months ended September 30, 2019, the Company had approximately \$1,033,000 in convertible debentures whose approximately 40,717,000 underlying shares are convertible at the holders' option at conversion prices ranging from \$0.01 to \$0.30 for fixed conversion rates, and 34% - 60% of the defined trading price for variable conversion rates and approximately 551,000 warrants with an exercise price of 45% of the market price of the Company's common stock, which were not included in the calculation of diluted EPS as their effect would be anti-dilutive. For the six months ended September 30, 2018, the Company had approximately \$1,296,000 in principal on convertible debentures whose approximately 193,807,000 underlying shares are convertible at the holders' option at conversion prices ranging from 34% - 61% of the defined trading price and approximately 14,537,000 warrants with an exercise price of 50% to 57% of the market price of the Company's common stock, which were not included in the calculation of diluted EPS as their effect would be anti-dilutive.

Impairment of Long-lived Assets and Long-lived Assets

The Company will periodically evaluate the carrying value of longlived assets to be held and used when events and circumstances warrant such a review and at least annually. The carrying value of a longlived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the longlived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on longlived assets to be disposed of are determined in a similar manner, except that fair values are reduced for the cost to dispose.

Recently Adopted Accounting Pronouncements

Our recently adopted accounting pronouncements are more fully described in Note 2 to our financial statements included herein for the quarter ended September 30, 2019.

Recently Issued Accounting Standards

In February 2016, FASB issued ASU No. 2016-02, *Leases* (Topic 842). The standard requires all leases that have a term of over 12 months to be recognized on the balance sheet with the liability for lease payments and the corresponding right-of-use asset initially measured at the present value of amounts expected to be paid over the term. Recognition of the costs of these leases on the income statement will be dependent upon their classification as either an operating or a financing lease. Costs of an operating lease will continue to be recognized as a single operating expense on a straight-line basis over the lease term. Costs for a financing lease will be disaggregated and recognized as both an operating expense (for the amortization of the right-of-use asset) and interest expense (for interest on the lease liability). This standard will be effective for our interim and annual periods beginning January 1, 2019, and must be applied on a modified retrospective basis to leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. Early adoption is permitted. The Company adopted ASU 2016-02 on April 1, 2019, and the adoption resulted in the recognition of a Right of Use Asset ("ROU") and a Lease Liability for a new equipment lease entered into on June 24, 2019.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable. As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (who is our Principal Executive Officer) and our Chief Financial Officer and Treasurer (who is our Principal Financial Officer and Principal Accounting Officer), of the effectiveness of the design of our disclosure controls and procedures (as defined by Exchange Act Rules 13a-15(e) or 15d-15(e)) as of September 30, 2019 pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were not effective as of September 30, 2019 in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. This conclusion is based on findings that constituted material weaknesses. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's interim financial statements will not be prevented or detected on a timely basis.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under the supervision and with the participation of our management, which currently consists of our Chief Executive Officer and Treasurer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on criteria established in the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO" - 2013) and SEC guidance on conducting such assessments. Our management concluded, as of September 30, 2019, that our internal control over financial reporting was not effective. Management realized there were deficiencies in the design or operation of the Company's internal control that adversely affected the Company's internal controls which management considers to be material weaknesses.

In performing the above-referenced assessment, management had concluded that as of September 30, 2019, there were deficiencies in the design or operation of our internal control that adversely affected our internal controls, which management considers to be material weaknesses, including those described below:

(i) *Lack of Formal Policies and Procedures.* We utilize a third-party independent contractor for the preparation of our financial statements. Although the financial statements and footnotes are reviewed by our management, we do not have a formal policy to review significant accounting transactions and the accounting treatment of such transactions. The third-party independent contractor is not involved in the day to day operations of the Company and may not be provided information from management on a timely basis to allow for adequate reporting/consideration of certain transactions.

(ii) *Audit Committee and Financial Expert.* We do not have a formal audit committee with a financial expert, and thus we lack the board oversight role within the financial reporting process.

(iii) *Insufficient Resources.* We have insufficient quantity of dedicated resources and experienced personnel involved in reviewing and designing internal controls. As a result, a material misstatement of the interim and annual financial statements could occur and not be prevented or detected on a timely basis.

(iv) *Entity Level Risk Assessment.* We did not perform an entity level risk assessment to evaluate the implication of relevant risks on financial reporting, including the impact of potential fraud related risks and the risks related to non-routine transactions, if any, on internal control over financial reporting. Lack of an entity-level risk assessment constituted an internal control design deficiency which resulted in more than a remote likelihood that a material error would not have been prevented or detected and constituted a material weakness.

(v) *Lack of Personnel with GAAP Experience.* We lack personnel with formal training to properly analyze and record complex transactions in accordance with U.S. GAAP.

Our management feels the weaknesses identified above have not had any material effect on our financial results. However, we are currently reviewing our disclosure controls and procedures related to these material weaknesses and expect to implement changes in the near term as resources permit, including identifying specific areas within our governance, accounting and financial reporting processes to add adequate resources to potentially mitigate these material weaknesses.

Our management will continue to monitor and evaluate the effectiveness of our internal controls and procedures and our internal controls over financial reporting on an ongoing basis and is committed to taking further action and implementing additional enhancements or improvements, as necessary and as funds allow.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2019 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting. We believe that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within any company have been detected.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Except as described below, we are currently not involved in any litigation that we believe could have a material adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company or any of our subsidiaries, threatened against or affecting our company, our common stock, any of our subsidiaries or of our companies or our subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

On April 30, 2019, a complaint was filed against the Company in the U.S. District Court in Dallas, Texas alleging that the Company breached a provision in a common stock purchase warrant (the "Vista Warrant") issued by the Company to Vista Capital Investments, LLC ("Vista"). Vista alleges that the Company failed to issue certain shares of the Company's common stock as was required under the terms of the Vista Warrant. Vista is currently seeking money damages in the approximate amount of \$7,000,000, which the Company believes is unwarranted and excessive, as well as costs and reimbursement of expenses. The Company is continuing to vigorously defend itself against these claims, preparing a counter-claim against Vista and taking such other appropriate action, in addition to seeking for other costs and relief as may be appropriate. The Company is currently litigating issues related to forum selection. The Company has accrued \$50,000 for the settlement of this complaint, which is recognized as "loss on warrant settlement" on the accompanying Statement of Operations in the three months ended June 30, 2019.

ITEM 1A. RISK FACTORS

As a smaller reporting company, we are not required to provide the information required by this Item. We note, however, that an investment in our common stock involves a number of very significant risks. Investors should carefully consider the risk factors included in the "Risk Factors" section of our Annual Report on Form 10-K for our fiscal year ended March 31, 2019, as filed with SEC on July 1, 2019, in addition to other information contained in such Annual Report and in this Quarterly Report on Form 10-Q, in evaluating the Company and our business before purchasing shares of our common stock. The Company's business, operating results and financial condition could be adversely affected due to any of those risks.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Series B Preferred Equity Offering

On September 5, 2019, the Board authorized the issuance of 5,000 preferred shares to be designated as Series B Preferred Stock. The Series B PS have a par value of \$0.0001, a stated value of \$1,200 and no voting rights. The Series B PS are redeemable at the Company's option, at percentages ranging from 120% to 135% for the first 180 days, based on the passage of time. The Series B are also redeemable at the holder's option, upon the occurrence of a triggering event which includes a change of control, bankruptcy, and the inability to deliver Series B PS requested under conversion notices. The triggering redemption amount is at the greater of (i) 135% of the stated value or (ii) the product of the volume-weighted average price on the day proceeding the triggering event multiplied by the stated value divided by the conversion price. As the Series B PS is contingently redeemable at the holder's option, the shares are classified as mezzanine equity.

The Series B PS is convertible, at the discounted market price which is defined as the lowest VWAP over last 20 days. The conversion price is adjustable based on several situations, including future dilutive issuances. As the Series B PS does not have a redemption date and is perpetual preferred stock, it is considered to be an equity host instrument and as such the conversion feature is not required to be bifurcated as it is clearly and closely related to the equity host instrument.

On September 17, 2019, the Company entered into a Securities Purchase Agreement with GHS for the purchase of up to 5,000 shares of Series B Preferred Stock at a stated value of \$1,200 per share, or for a total net proceeds of \$5,000,000 in the event the entire 5000 shares of Series B PS are purchased. On September 17, 2019, the Company received an initial tranche of \$250,000 under the SPA.

So long as any Preferred Stock shall remain outstanding, neither the Corporation nor any Subsidiary thereof shall directly or indirectly pay or declare any dividend or make any distribution upon (other than a dividend or distribution described in Section 2 or dividends due and paid in the ordinary course on preferred stock of the Corporation at such times when the Corporation is in compliance with its payment and other obligations hereunder), nor shall any distribution be made in respect of, any Junior Securities or pari passu securities as long as any dividends due on the Preferred Stock remain unpaid, nor shall any monies be set aside for or applied to the purchase or redemption (through a sinking fund or otherwise) of any Junior Securities or pari passu securities.

Section 3. Voting Rights. Except as otherwise provided herein or as otherwise required by law, the Preferred Stock shall have no voting rights. However, as long as any shares of Preferred Stock are outstanding, the Corporation shall not, without the affirmative vote of the Holders of a majority of the then outstanding shares of the Preferred Stock directly and/or indirectly (a) alter or change adversely the powers, preferences or rights given to the Preferred Stock or alter or amend this Certificate of Designation, (b) authorize or create any class of stock ranking as to redemption or distribution of assets upon a Liquidation (as defined in Section 5) senior to, or otherwise pari passu with, the Preferred Stock or, authorize or create any class of stock ranking as to dividends senior to, or otherwise pari passu with, the Preferred Stock, (c) amend its Articles of Incorporation or other charter documents in any manner that adversely affects any rights of the Holders, (d) increase the number of authorized shares of Preferred Stock, or (e) enter into any agreement with respect to any of the foregoing.

Section 4. Liquidation. Upon any liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary (a "Liquidation"), the Holders shall be entitled to receive out of the assets, whether capital or surplus, of the Corporation an amount equal to the Stated Value, plus any accrued and unpaid dividends thereon and any other fees or liquidated damages then due and owing thereon under this Certificate of Designation, for each share of Preferred Stock before any distribution or payment shall be made to the holders of any Junior Securities, and if the assets of the Corporation shall be insufficient to pay in full such amounts, then the entire assets to be distributed to the Holders shall be ratably distributed among the Holders in accordance with the respective amounts that would be payable on such shares if all amounts payable thereon were paid in full. A Fundamental Transaction or Change of Control Transaction shall not be deemed a Liquidation. The Corporation shall mail written notice of any such Liquidation, not less than 45 days prior to the payment date stated therein, to each Holder.

Section 5. Conversion.

a) Conversions at Option of Holder. Each share of Preferred Stock shall be convertible, at any time and from time to time from and after the Original Issue Date at the option of the Holder thereof, into that number of shares of Common Stock (subject to the limitations set forth in Section 5(d)) determined by dividing the Stated Value of such share of Preferred Stock by the Conversion Price. Holders shall effect conversions by providing the Corporation with the form of conversion notice attached hereto as Annex A (a "Notice of Conversion"). Each Notice of Conversion shall specify the number of shares of Preferred Stock to be converted, the number of shares of Preferred

Stock owned prior to the conversion at issue, the number of shares of Preferred Stock owned subsequent to the conversion at issue and the date on which such conversion is to be effected, which date may not be prior to the date the applicable Holder delivers by facsimile or email such Notice of Conversion to the Corporation (such date, the "Conversion Date"). If no Conversion Date is specified in a Notice of Conversion, the Conversion Date shall be the date that such Notice of Conversion to the Corporation is deemed delivered hereunder. No ink-original Notice of Conversion shall be required, nor shall any medallion guarantee (or other type of guarantee or notarization) of any Notice of Conversion form be required. The calculations and entries set forth in the Notice of Conversion shall control in the absence of manifest or mathematical error. To effect conversions of shares of Preferred Stock, a Holder shall not be required to surrender the certificate(s) representing the shares of Preferred Stock to the Corporation unless all of the shares of Preferred Stock represented thereby are so converted, in which case such Holder shall deliver the certificate representing such shares of Preferred Stock promptly following the Conversion Date at issue. Shares of Preferred Stock converted into Common Stock or redeemed in accordance with the terms hereof shall be canceled and shall not be reissued.

b) Conversion Price. The initial conversion price (the "Conversion Price") for the Preferred Stock shall be the Discounted Market Price. All such foregoing determinations will be appropriately adjusted for any stock dividend, stock split, stock combination, reclassification or similar transaction that proportionately decreases or increases the Common Stock during such measuring period. Nothing herein shall limit a Holder's right to pursue actual damages including, but not limited to, as a result of a Triggering event pursuant to Section 10 hereof and the Holder shall have the right to pursue all remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief. The exercise of any such rights shall not prohibit the Holder from seeking to enforce damages pursuant to any other Section hereof or under applicable law.

c) Mechanics of Conversion

i. Delivery of Conversion Shares Upon Conversion. Not later than three (3) Trading Days after each Conversion Date (the "Share Delivery Date"), the Corporation shall deliver, or cause to be delivered, to the converting Holder (A) the number of Conversion Shares being acquired upon the conversion of the Preferred Stock, which Conversion Shares shall be free of restrictive legends and trading restrictions, and (B) a bank check in the amount of accrued and unpaid dividends (if the Corporation has elected or is required to pay accrued dividends in cash). The Corporation shall deliver the Conversion Shares electronically through the Depository Trust Company or another established clearing corporation performing similar functions.

ii. Failure to Deliver Conversion Shares. If, in the case of any Notice of Conversion, such Conversion Shares are not delivered to or as directed by the applicable Holder by the Share Delivery Date, the Holder shall be entitled to elect by written notice to the Corporation at any time on or before its receipt of such Conversion Shares, to rescind such Conversion, in which event the Corporation shall promptly return to the Holder any original Preferred Stock certificate delivered to the Corporation and the Holder shall promptly return to the Corporation the Conversion Shares issued to such Holder pursuant to the rescinded Conversion Notice.

iii. Obligation Absolute; Partial Liquidated Damages. The Corporation's obligation to issue and deliver the Conversion Shares upon conversion of Preferred Stock in accordance with the terms hereof are absolute and unconditional, irrespective of any action or inaction by a Holder to enforce the same, any waiver or consent with respect to any provision hereof, the recovery of any judgment against any Person or any action to enforce the same, or any setoff, counterclaim, recoupment, limitation or termination, or any breach or alleged breach by such Holder or any other Person of any obligation to the Corporation or any violation or alleged violation of law by such Holder or any other person, and irrespective of any other circumstance which might otherwise limit such obligation of the Corporation to such Holder in connection with the issuance of such Conversion Shares; provided, however, that such delivery shall not operate as a waiver by the Corporation of any such action that the Corporation may have against such Holder. In the event a Holder shall elect to convert any or all of the Stated Value of its Preferred Stock, the Corporation may not refuse conversion based on any claim that such Holder or any one associated or affiliated with such Holder has been engaged in any violation of law, agreement or for any other reason, unless an injunction from a court, on notice to Holder, restraining and/or enjoining conversion of all or part of the Preferred Stock of such Holder shall have been sought and obtained, and the Corporation posts a surety bond for the benefit of such Holder in the amount of 150% of the Stated Value of Preferred Stock which is subject to the injunction, which bond shall remain in effect until the

completion of arbitration/litigation of the underlying dispute and the proceeds of which shall be payable to such Holder to the extent it obtains judgment. In the absence of such injunction, the Corporation shall issue Conversion Shares and, if applicable, cash, upon a properly noticed conversion. If the Corporation fails to deliver to a Holder such Conversion Shares pursuant to Section 5 on the second Trading Day after the Share Delivery Date applicable to such conversion, the Corporation shall pay to such Holder, in cash, as liquidated damages and not as a penalty, for each \$5,000 of Stated Value of Preferred Stock being converted, \$50 per Trading Day (increasing to \$100 per Trading Day on the third Trading Day and increasing to \$200 per Trading Day on the sixth Trading Day after such damages begin to accrue) for each Trading Day after such second Trading Day after the Share Delivery Date until such Conversion Shares are delivered or Holder rescinds such conversion. All liquidated damages shall be paid to the Holder not later than the fifth (5th) Trading Day after notice is provided to the Company by the Holder stating that any such liquidated damages are due pursuant to this Section 5. Nothing herein shall limit a Holder's right to pursue actual damages or declare a Triggering Event pursuant to Section 10 hereof for the Corporation's failure to deliver Conversion Shares within the period specified herein and such Holder shall have the right to pursue all remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief. The exercise of any such rights shall not prohibit a Holder from seeking to enforce damages pursuant to any other Section hereof or under applicable law.

iv. Compensation for Buy-In on Failure to Timely Deliver Conversion Shares Upon Conversion. In addition to any other rights available to the Holder, if the Corporation fails for any reason to deliver to a Holder the applicable Conversion Shares by the Share Delivery Date pursuant to Section 5, and if after such Share Delivery Date such Holder is required by its brokerage firm to purchase (in an open market transaction or otherwise), or the Holder's brokerage firm otherwise purchases, shares of Common Stock to deliver in satisfaction of a sale by such Holder of the Conversion Shares which such Holder was entitled to receive upon the conversion relating to such Share Delivery Date (a "Buy-In"), then the Corporation shall (A) pay in cash to such Holder (in addition to any other remedies available to or elected by such Holder) the amount, if any, by which (x) such Holder's total purchase price (including any brokerage commissions) for the Common Stock so purchased exceeds (y) the product of (1) the aggregate number of shares of Common Stock that such Holder was entitled to receive from the conversion at issue multiplied by (2) the actual sale price at which the sell order giving rise to such purchase obligation was executed (including any brokerage commissions) and (B) at the option of such Holder, either reissue (if surrendered) the shares of Preferred Stock equal to the number of shares of Preferred Stock submitted for conversion (in which case, such conversion shall be deemed rescinded) or deliver to such Holder the number of shares of Common Stock that would have been issued if the Corporation had timely complied with its delivery requirements under Section 5. For example, if a Holder purchases shares of Common Stock having a total purchase price of \$11,000 to cover a Buy-In with respect to an attempted conversion of shares of Preferred Stock with respect to which the actual sale price of the Conversion Shares (including any brokerage commissions) giving rise to such purchase obligation was a total of \$10,000 under clause (A) of the immediately preceding sentence, the Corporation shall be required to pay such Holder \$1,000. The payment of all amounts due by the Company to the Holder shall be paid in cash no later than the fifth (5th) Business Day after notice is provided by a Holder to the Company requesting the payment of any such liquidated damages. The Holder shall provide the Corporation written notice indicating the amounts payable to such Holder in respect of the Buy-In and, upon request of the Corporation, evidence of the amount of such loss. Nothing herein shall limit a Holder's right to pursue any other remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief with respect to the Corporation's failure to timely deliver the Conversion Shares upon conversion of the shares of Preferred Stock as required pursuant to the terms hereof.

v. Reservation of Shares Issuable Upon Conversion. The Company covenants that it will at all times reserve and keep available out of its authorized and unissued shares of Common Stock a number of shares of Common Stock at least equal to 300% of the Required Minimum for the sole purpose of issuance upon conversion of the Preferred Stock and payment of dividends on the Preferred Stock, all as herein provided, free from preemptive rights or any other actual contingent purchase rights of Persons other than the Purchasers, not less than such aggregate number of shares of the Common Stock as shall (subject to the terms and conditions set forth in the Purchase Agreement) be issuable (taking into account the adjustments and restrictions of Section 7, but ignoring any Beneficial Ownership Limitations or other restrictions and/or limitations on conversions set forth herein or elsewhere) upon the conversion of the then outstanding Preferred Stock and payment of dividends

hereunder. The Company covenants that all shares of Common Stock that shall be so issuable shall, upon issue, be duly authorized, validly issued, fully paid and nonassessable, and, at such times as a registration statement covering such shares is then effective under the Securities Act, will be registered for public resale in accordance with such registration statement. For purposes of this Certification of Designation, the term "Required Minimum" shall be defined as the product of (i) 300%, multiplied by (ii) the quotient of (A)(x) all outstanding Stated Value of all issued and outstanding Preferred Stock, (y) all unpaid dividends thereon (whether accrued or not), and (z) all fees and/or any costs and expenses relating to the Transaction Documents including, but not limited to Late Fees and liquidation damages, divided by (B) the Conversion Price on the date of Closing. The Company shall be required to calculate the Required Minimum on the first trading day of each month that any shares of Preferred Stock are outstanding and provide such calculation to the Holder and the transfer agent promptly. For purposes of calculating the Required Minimum, Company shall assume that all Preferred Stock will remain outstanding for eighteen (18) months and all accrued but unpaid dividends thereon accrues at the rate of 18% per annum, is paid on the date 18 months from the Closing.

vi. Fractional Shares. No fractional shares or scrip representing fractional shares shall be issued upon the conversion of the Preferred Stock. As to any fraction of a share which the Holder would otherwise be entitled to purchase upon such conversion, the Corporation shall at its election, either pay a cash adjustment in respect of such final fraction in an amount equal to such fraction multiplied by the Conversion Price or round up to the next whole share.

vii. Transfer Taxes and Expenses. The issuance of Conversion Shares on conversion of this Preferred Stock shall be made without charge to any Holder for any documentary stamp or similar taxes that may be payable in respect of the issue or delivery of such Conversion Shares, provided that the Corporation shall not be required to pay any tax that may be payable in respect of any transfer involved in the issuance and delivery of any such Conversion Shares upon conversion in a name other than that of the Holders of such shares of Preferred Stock and the Corporation shall not be required to issue or deliver such Conversion Shares unless or until the Person or Persons requesting the issuance thereof shall have paid to the Corporation the amount of such tax or shall have established to the satisfaction of the Corporation that such tax has been paid. The Corporation shall pay all Transfer Agent fees required for same-day processing of any Notice of Conversion and all fees to the Depository Trust Company (or another established clearing corporation performing similar functions) required for same-day electronic delivery of the Conversion Shares in an amount not to exceed \$350.00 per conversion.

d) Beneficial Ownership Limitation. The Corporation shall not affect any conversion of the Preferred Stock, and a Holder shall not have the right to convert any portion of the Preferred Stock, to the extent that, after giving effect to the conversion set forth on the applicable Notice of Conversion, such Holder (together with such Holder's Affiliates, and any Persons acting as a group together with such Holder or any of such Holder's Affiliates) would beneficially own in excess of the Beneficial Ownership Limitation (as defined below). For purposes of the foregoing sentence, the number of shares of Common Stock beneficially owned by such Holder and its Affiliates shall include the number of shares of Common Stock issuable upon conversion of the Preferred Stock with respect to which such determination is being made, but shall exclude the number of shares of Common Stock which are issuable upon (i) conversion of the remaining, unconverted Stated Value of Preferred Stock beneficially owned by such Holder or any of its Affiliates and (ii) exercise or conversion of the unexercised or unconverted portion of any other securities of the Corporation subject to a limitation on conversion or exercise analogous to the limitation contained herein (including, without limitation, the Preferred Stock or the Warrants) beneficially owned by such Holder or any of its Affiliates. Except as set forth in the preceding sentence, for purposes of this Section 6(d), beneficial ownership shall be calculated in accordance with Section 13(d) of the Exchange Act and the rules and regulations promulgated thereunder. To the extent that the limitation contained in this Section 6(d) applies, the determination of whether the Preferred Stock is convertible (in relation to other securities owned by such Holder together with any Affiliates) and of how many shares of Preferred Stock are convertible shall be in the sole discretion of such Holder, and the submission of a Notice of Conversion shall be deemed to be such Holder's determination of whether the shares of Preferred Stock may be converted (in relation to other securities owned by such Holder together with any Affiliates) and how many shares of the Preferred Stock are convertible, in each case subject to the Beneficial Ownership Limitation. To ensure compliance with this restriction, each Holder will be deemed to represent to the Corporation each time it delivers a Notice of Conversion that such Notice of Conversion has not violated the restrictions set forth in this paragraph and the Corporation shall have no obligation to verify or confirm the accuracy of such determination.

In addition, a determination as to any group status as contemplated above shall be determined in accordance with Section 13(d) of the Exchange Act and the rules and regulations promulgated thereunder. For purposes of this Section 6(d), in determining the number of outstanding shares of Common Stock, a Holder may rely on the number of outstanding shares of Common Stock as stated in the most recent of the following: (i) the Corporation's most recent periodic or annual report filed with the Commission, as the case may be, (ii) a more recent public announcement by the Corporation or (iii) a more recent written notice by the Corporation or the Transfer Agent setting forth the number of shares of Common Stock outstanding. Upon the written or oral request of a Holder, the Corporation shall within two Trading Days confirm orally and in writing to such Holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of securities of the Corporation, including the Preferred Stock, by such Holder or its Affiliates since the date as of which such number of outstanding shares of Common Stock was reported. The "Beneficial Ownership Limitation" shall be 4.99% of the number of shares of the Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon conversion of Preferred Stock held by the applicable Holder.

Section 6. Intentionally Omitted.

Section 7. Certain Adjustments.

a) Stock Dividends and Stock Splits. If the Corporation, at any time while this Preferred Stock is outstanding: (i) pays a stock dividend or otherwise makes a distribution or distributions that is payable in shares of Common Stock on shares of Common Stock or any other Common Stock Equivalents (which, for avoidance of doubt, shall not include any shares of Common Stock issued by the Corporation upon conversion of, or payment of a dividend on, the Preferred Stock), (ii) subdivides outstanding shares of Common Stock into a larger number of shares, (iii) combines (including by way of a reverse stock split) outstanding shares of Common Stock into a smaller number of shares, or (iv) issues, in the event of a reclassification of shares of the Common Stock, any shares of capital stock of the Corporation, then the Conversion Price shall be multiplied by a fraction of which the numerator shall be the number of shares of Common Stock (excluding any treasury shares of the Corporation) outstanding immediately before such event, and of which the denominator shall be the number of shares of Common Stock outstanding immediately after such event. Any adjustment made pursuant to this Section 7(a) shall become effective immediately after the record date for the determination of stockholders entitled to receive such dividend or distribution and shall become effective immediately after the effective date in the case of a subdivision, combination or re-classification.

b) Dilutive Issuances. If, at any time when any Preferred Shares are issued and outstanding, the Corporation issues or sells, or is deemed to have issued or sold, any shares of Common Stock in connection with a financing transaction executed and made effective subsequent to the date of this Agreement based on a variable price formula or price (the "Alternative Price Formula") that is more favorable to the investor in such financing transaction than the formula for calculating the Conversion Price in effect on the date of such issuance (or deemed issuance) of such shares of Common Stock (a "Dilutive Issuance"), then immediately upon the Dilutive Issuance, the formula for the Conversion Price of the Preferred Shares will be adjusted to match the Alternative Price Formula. If it is unclear whether the Alternative Price Formula is better or worse, then Holder, in its sole discretion, may elect at the time of such issuance whether to switch to the Alternative Variable Price Formula or not.

c) Subsequent Rights Offerings. In addition to any adjustments pursuant to Section 7(a) above, if at any time the Corporation grants, issues or sells any Common Stock Equivalents or rights to purchase stock, warrants, securities or other property pro rata to the record holders of any class of shares of Common Stock (the "Purchase Rights"), then the Holder of will be entitled to acquire, upon the terms applicable to such Purchase Rights, the aggregate Purchase Rights which the Holder could have acquired if the Holder had held the number of shares of Common Stock acquirable upon complete conversion of such Holder's Preferred Stock (without regard to any limitations on exercise hereof, including without limitation, the Beneficial Ownership Limitation) immediately before the date on which a record is taken for the grant, issuance or sale of such Purchase Rights, or, if no such record is taken, the date as of which the record holders of shares of Common Stock are to be determined for the grant, issue or sale of such Purchase Rights (provided, however, to the extent that the Holder's right to participate in any such Purchase Right would result in the Holder exceeding the Beneficial Ownership Limitation, then the Holder shall not be entitled to participate in such Purchase Right to such extent (or beneficial ownership of such shares of Common

Stock as a result of such Purchase Right to such extent) and such Purchase Right to such extent shall be held in abeyance for the Holder until such time, if ever, as its right thereto would not result in the Holder exceeding the Beneficial Ownership Limitation).

d) Pro Rata Distributions. During such time as this Preferred Stock is outstanding, if the Corporation shall declare or make any dividend or other distribution of its assets (or rights to acquire its assets) to holders of shares of Common Stock, by way of return of capital or otherwise (including, without limitation, any distribution of cash, stock or other securities, property or options by way of a dividend, spin off, reclassification, corporate rearrangement, scheme of arrangement or other similar transaction) (a "Distribution"), at any time after the issuance of this Preferred Stock, then, in each such case, the Holder shall be entitled to participate in such Distribution to the same extent that the Holder would have participated therein if the Holder had held the number of shares of Common Stock acquirable upon complete exercise of this Preferred Stock (without regard to any limitations on exercise hereof, including without limitation, the Beneficial Ownership Limitation) immediately before the date of which a record is taken for such Distribution, or, if no such record is taken, the date as of which the record holders of shares of Common Stock are to be determined for the participation in such Distribution (provided, however, to the extent that the Holder's right to participate in any such Distribution would result in the Holder exceeding the Beneficial Ownership Limitation, then the Holder shall not be entitled to participate in such Distribution to such extent (or in the beneficial ownership of any shares of Common Stock as a result of such Distribution to such extent) and the portion of such Distribution shall be held in abeyance for the benefit of the Holder until such time, if ever, as its right thereto would not result in the Holder exceeding the Beneficial Ownership Limitation).

e) Fundamental Transaction.

1) General. The Company shall not enter into or be party to a Fundamental Transaction unless (i) the Successor Entity (as defined below) assumes in writing all of the obligations of the Company under this Certificate of Designation in accordance with the provisions of this Section 7.e) pursuant to written agreements in form and substance satisfactory to the Holder and approved by the Holder prior to such Fundamental Transaction, including agreements to deliver to the Holder in exchange for shares of Preferred Stock a security of the Successor Entity evidenced by a written instrument substantially similar in form and substance to the Preferred Stock, including, without limitation, which is convertible into a corresponding number of shares of capital stock equivalent to the shares of Common Stock acquirable and receivable upon conversion of the Preferred Stock (without regard to any limitations on the conversion of the Preferred Stock) prior to such Fundamental Transaction, and with a conversion price which applies the conversion price hereunder to such shares of capital stock (but taking into account the relative value of the shares of Common Stock pursuant to such Fundamental Transaction and the value of such shares of capital stock, such adjustments to the number of shares of capital stock and such conversion price being for the purpose of protecting the economic value of the Preferred Stock immediately prior to the consummation of such Fundamental Transaction) and (ii) if the Fundamental Transaction occurs within six (6) months of the Closing Date, the Successor Entity (including its Parent Entity) is a publicly traded corporation whose common stock is quoted on or listed for trading on an Eligible Market. Upon the consummation of each Fundamental Transaction, the Successor Entity shall succeed to, and be substituted for (so that from and after the date of the applicable Fundamental Transaction, the provisions of this Certificate of Designation referring to the "Company" shall refer instead to the Successor Entity), and may exercise every right and power of the Company and shall assume all of the obligations of the Company under this Certificate of Designation with the same effect as if such Successor Entity had been named as the Company herein. Upon consummation of each Fundamental Transaction, the Successor Entity shall deliver to the Holder confirmation that there shall be issued upon conversion of the Preferred Stock at any time after the consummation of the applicable Fundamental Transaction, in lieu of the shares of Common Stock (or other securities, cash, assets or other property) issuable upon the conversion of the Preferred Stock prior to the applicable Fundamental Transaction, such shares of publicly traded common stock (or its equivalent) of the Successor Entity (including its Parent Entity) which the Holder would have been entitled to receive upon the happening of the applicable Fundamental Transaction had the Preferred Stock been converted immediately prior to the applicable Fundamental Transaction (without regard to any limitations on the conversion of the Preferred Stock), as adjusted in accordance with the provisions of this Certificate of Designation. Notwithstanding the foregoing, and without limiting Section 5 hereof, the Holder may elect, at its sole option, by delivery of written notice to the Company to waive this Section 7.e) to permit the Fundamental Transaction without the assumption of the Preferred Stock. In addition to and not in substitution for any other rights hereunder, prior to the consummation of each Fundamental Transaction pursuant to which holders of shares of Common Stock are entitled to receive securities or other assets with respect to or in exchange for shares of Common Stock (a

"Corporate Event"), the Company shall make appropriate provision to insure that the Holder will thereafter have the right to receive upon a conversion of the Preferred Stock at any time after the consummation of the applicable Fundamental Transaction but prior to the Expiration Date, in lieu of the shares of the Common Stock (or other securities, cash, assets or other property) issuable upon the conversion of the Preferred Stock prior to such Fundamental Transaction, such shares of stock, securities, cash, assets or any other property whatsoever (including warrants or other purchase or subscription rights) which the Holder would have been entitled to receive upon the happening of the applicable Fundamental Transaction had this Note been exercised immediately prior to the applicable Fundamental Transaction (without regard to any limitations on the conversion of the Preferred Stock). Provision made pursuant to the preceding sentence shall be in a form and substance reasonably satisfactory to the Holder.

2) Black Scholes Value. Notwithstanding the foregoing and the provisions of Section 5 above, at the request of the Holder delivered at any time commencing on the earliest to occur of (x) the public disclosure of any Fundamental Transaction, (y) the consummation of any Fundamental Transaction and (z) the Holder first becoming aware of any Fundamental Transaction through the date that is ninety (90) days after the public disclosure of the consummation of such Fundamental Transaction by the Company pursuant to a Current Report on Form 8-K filed with the SEC, the Company or the Successor Entity (as the case may be) shall purchase the Preferred Stock from the Holder on the date of such request by paying to the Holder cash in an amount equal to the Black Scholes Value.

3) Fundamental Transaction. If, at any time while any Preferred Stock is outstanding, (i) the Company, directly or indirectly, in one or more related transactions effects any merger or consolidation of the Company with or into another Person, (ii) the Company, directly or indirectly, effects any sale, lease, license, assignment, transfer, conveyance or other disposition of all or substantially all of its assets in one or a series of related transactions, (iii) any, direct or indirect, purchase offer, tender offer or exchange offer (whether by the Company or another Person) is completed pursuant to which holders of Common Stock are permitted to sell, tender or exchange their shares for other securities, cash or property and has been accepted by the holders of 50% or more of the outstanding Common Stock, (iv) the Company, directly or indirectly, in one or more related transactions effects any reclassification, reorganization or recapitalization of the Common Stock or any compulsory share exchange pursuant to which the Common Stock is effectively converted into or exchanged for other securities, cash or property, or (v) the Company, directly or indirectly, in one or more related transactions consummates a stock or share purchase agreement or other business combination (including, without limitation, a reorganization, recapitalization, spin-off or scheme of arrangement) with another Person or group of Persons whereby such other Person or group acquires more than 50% of the outstanding shares of Common Stock (not including any shares of Common Stock held by the other Person or other Persons making or party to, or associated or affiliated with the other Persons making or party to, such stock or share purchase agreement or other business combination) (each a "Fundamental Transaction"), then, upon any subsequent conversion of the Preferred Stock, the Holder shall have the right to receive, for each Conversion Share that would have been issuable upon such conversion immediately prior to the occurrence of such Fundamental Transaction, at the option of the Holder (without regard to any limitation in Section 6 on the conversion of the Preferred Stock), the number of shares of Common Stock of the successor or acquiring corporation or of the Company, if it is the surviving corporation, and any additional consideration (the "Alternate Consideration") receivable as a result of such Fundamental Transaction by a holder of the number of shares of Common Stock into which each share of Preferred Stock is convertible immediately prior to such Fundamental Transaction (without regard to any limitation in Section 6 on the conversion of the Preferred Stock). For purposes of any such conversion, the determination of the Conversion Price shall be appropriately adjusted to apply to such Alternate Consideration based on the amount of Alternate Consideration issuable in respect of one share of Common Stock in such Fundamental Transaction, and the Company shall apportion the Conversion Price among the Alternate Consideration in a reasonable manner reflecting the relative value of any different components of the Alternate Consideration. If holders of Common Stock are given any choice as to the securities, cash or property to be received in a Fundamental Transaction, then the Holder shall be given the same choice as to the Alternate Consideration it receives upon any conversion of this Note following such Fundamental Transaction. Notwithstanding anything to the contrary, in the event of a Fundamental Transaction, the Company or any Successor Entity shall, at the Holder's option, exercisable at any time concurrently with, or within 30 days after, the consummation of the Fundamental Transaction, purchase the shares of Preferred Stock from the Holder by paying to the Holder an amount of cash equal to the Black Scholes Value of the remaining unconverted shares of Preferred Stock on the date of the consummation of such Fundamental Transaction. "Black Scholes Value" means the value of the unconverted shares of Preferred Stock remaining on the date of the Holder's request pursuant to Section 7(e)(2) which value is calculated using the Black Scholes Option Pricing Model for a "call" or "put" option,

as elected by the Holder, as obtained from the "OV" function on Bloomberg utilizing (i) an underlying price per share equal to the greater of (1) the highest Closing Sale Price of the Common Stock during the period beginning on the Trading Day immediately preceding the announcement of the applicable Fundamental Transaction (or the consummation of the applicable Fundamental Transaction, if earlier) and ending on the Trading Day of the Holder's request pursuant to Section 7(e)(2) and (2) the sum of the price per share being offered in cash in the applicable Fundamental Transaction (if any) plus the value of the non-cash consideration being offered in the applicable Fundamental Transaction (if any), (ii) a strike price equal to the Conversion Price in effect on the date of the Holder's request pursuant to Section 7(e)(2), (iii) a risk-free interest rate corresponding to the U.S. Treasury rate as of the date of the Holder's request pursuant to Section 7(e)(2) if such request is prior to the date of the consummation of the applicable Fundamental Transaction, (iv) a zero cost of borrow and (v) an expected volatility equal to the greater of 100% and the 30 day volatility obtained from the "HVT" function on Bloomberg (determined utilizing a 365 day annualization factor) as of the Trading Day immediately following the earliest to occur of (A) the public disclosure of the applicable Fundamental Transaction, (B) the consummation of the applicable Fundamental Transaction and (C) the date on which the Holder first became aware of the applicable Fundamental Transaction. The Company shall cause any successor entity in a Fundamental Transaction in which the Company is not the survivor (the "Successor Entity") to assume in writing all of the obligations of the Company under this Certificate of Designation and the other Transaction Documents in accordance with the provisions of this Section 7(e) pursuant to written agreements in form and substance reasonably satisfactory to the Holder and approved by the Holder (without unreasonable delay) prior to such Fundamental Transaction and shall, at the option of the Holder, deliver to the Holder in exchange for the Preferred Stock a security of the Successor Entity evidenced by a written instrument substantially similar in form and substance to the Preferred Stock which is convertible into a corresponding number of shares of capital stock of such Successor Entity (or its parent entity) equivalent to the shares of Common Stock acquirable and receivable upon conversion of the Preferred Stock (without regard to any limitations on the conversion of the Preferred Stock) prior to such Fundamental Transaction, and with a conversion price which applies the Conversion Price hereunder to such shares of capital stock (but taking into account the relative value of the shares of Common Stock pursuant to such Fundamental Transaction and the value of such shares of capital stock, such number of shares of capital stock and such conversion price being for the purpose of protecting the economic value of the Preferred Stock immediately prior to the consummation of such Fundamental Transaction), and which is reasonably satisfactory in form and substance to the Holder. Upon the occurrence of any such Fundamental Transaction, the Successor Entity shall succeed to, and be substituted for (so that from and after the date of such Fundamental Transaction, the provisions of this Note and the other Transaction Documents referring to the "Company" shall refer instead to the Successor Entity), and may exercise every right and power of the Company and shall assume all of the obligations of the Company under this Note and the other Transaction Documents with the same effect as if such Successor Entity had been named as the Company herein.

f) Calculations. All calculations under this Section 7 shall be made to the nearest cent or the nearest 1/100th of a share, as the case may be. For purposes of this Section 7, the number of shares of Common Stock deemed to be issued and outstanding as of a given date shall be the sum of the number of shares of Common Stock (excluding any treasury shares of the Corporation) issued and outstanding.

g) Notice to the Holders.

i. Adjustment to Conversion Price. Whenever the Conversion Price is adjusted pursuant to any provision of this Section 7, the Corporation shall promptly deliver to each Holder a notice setting forth the Conversion Price after such adjustment and setting forth a brief statement of the facts requiring such adjustment.

ii. Notice to Allow Conversion by Holder. To the extent that any notice provided hereunder constitutes, or contains, material, non-public information regarding the Corporation or any of the Subsidiaries, the Corporation shall simultaneously file such notice with the Commission pursuant to a Current Report on Form 8-K. The Triggering Redemption Amount, whether payable in cash or in shares, shall be due and payable or issuable, as the case may be, within five (5) Trading Days of the date on which the notice for the payment thereof is provided by a Holder (the "Triggering Redemption Payment Date"). If the Corporation fails to pay in full the Triggering Redemption Amount hereunder on the date such amount is due in accordance with this Section (whether in cash or shares of Common Stock), the Corporation will pay interest thereon at a rate equal to the lesser of 18% per annum or the maximum rate permitted by applicable law, accruing and compounding daily from such date until the Triggering Redemption Amount, plus all such interest thereon, is paid in full.

Section 11. Piggy-Back Registration Rights.

a) Except for that certain Registration Statement filed with the Securities and Exchange Commission in connection with the registration of securities underlying an Equity Financing Agreement or similar agreement, including, but not limited to, that certain Equity Financing Agreement entered into by and between the Corporation and GHS Investments, LLC dated August 23, 2019, if, at any time on or after the issuance date of the

Preferred Stock, the Company proposes to file any Registration Statement under the Securities Act (a "Registration Statement") with respect to any offering of equity securities, or securities or other obligations exercisable or exchangeable for, or convertible into, equity securities, by the Company for its own account or for shareholders of the Company for their account (or by the Company and by shareholders of the Company), other than a Registration Statement in connection with a merger or acquisition, then the Company shall (x) give written notice of such proposed filing to the Holders as soon as practicable but in no event less than ten (10) days before the anticipated filing date of the Registration Statement, which notice shall describe the amount and type of securities to be included in such Registration Statement, the intended method(s) of distribution, and the name of the proposed managing underwriter or underwriters, if any, of the offering, and (y) offer to the Holders the opportunity to register the sale of such number of Preferred Stock as such Holders may request in writing within five (5) days following receipt of such notice (a "Piggy-Back Registration"). The Company shall cause such Preferred Stock to be included in such registration and shall cause the managing underwriter or underwriters of a proposed underwritten offering to permit the Preferred Stock requested to be included in a Piggy-Back Registration on the same terms and conditions as any similar securities of the Company and to permit the sale or other disposition of such Preferred Stock in accordance with the intended method(s) of distribution thereof. All Holders proposing to distribute their Preferred Stock through a Piggy-Back Registration that involves an underwriter or underwriters shall enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such Piggy-Back Registration. Notwithstanding anything to the contrary in this Section 11, the Company shall not be required to register such Preferred Stock pursuant to this Section 11 that are eligible for resale pursuant to Rule 144 promulgated under the Securities Act or that are the subject of a then effective Registration Statement.

b) Any Holder may elect to withdraw such Solder's request for inclusion of Preferred Stock in any Piggy-Back Registration by giving written notice to the Company of such request to withdraw prior to the effectiveness of the Registration Statement. The Company (whether on its own determination or as the result of a withdrawal by persons making a demand pursuant to written contractual obligations) may withdraw a Registration Statement at any time prior to the effectiveness of such Registration Statement. Notwithstanding any such withdrawal, the Company shall pay all expenses incurred by the Holders in connection with such Piggy-Back Registration (including but not limited to any legal fees).

c) The Company shall notify the Holders at any time when a prospectus relating to such Holder's Securities is required to be delivered under the Securities Act, upon discovery that, or upon the happening of any event as a result of which, the prospectus included in such Registration Statement, as then in effect, includes an untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein not misleading in light of the circumstances then existing. At the request of such Holder, the Company shall also prepare, file and furnish to such Holder a reasonable number of copies of a supplement to or an amendment of such prospectus as may be necessary so that, as thereafter delivered to the purchasers of the Preferred Stock, such prospectus shall not include an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading in light of the circumstances then existing. The Holders shall not offer or sell any Preferred Stock covered by the Registration Statement after receipt of such notification until the receipt of such supplement or amendment.

d) The Company may request a Holder to furnish the Company such information with respect to such Holder and such Holder's proposed distribution of the Preferred Stock pursuant to the Registration Statement as the Company may from time to time reasonably request in writing or as shall be required by law or by the Commission in connection therewith, and such Holders shall furnish the Company with such information.

e) All fees and expenses incident to the performance of or compliance with this Section 11 by the Company shall be borne by the Company whether or not any Preferred Stock are sold pursuant to a Registration Statement. The fees and expenses referred to in the foregoing sentence shall include, without limitation, (i) all registration and filing fees (including, without limitation, fees and expenses of the Company's counsel and independent registered public accountants) (A) with respect to filings made with the Commission, (B) with respect to filings required to be made with any Trading Market on which the Common Stock are then listed for trading, (C) in compliance with applicable state securities or Blue Sky laws reasonably agreed to by the Company in writing (including, without limitation, fees and disbursements of counsel for the Company in connection with Blue Sky qualifications or exemptions) and (D) with respect to any filing that may be required to be made by any broker through

which a Holder intends to make sales of Preferred Stock with FINRA, (ii) printing expenses, (iii) messenger, telephone and delivery expenses, (iv) fees and disbursements of counsel for the Company, (v) Securities Act liability insurance, if the Company so desires such insurance, and (vi) fees and expenses of all other persons or entities retained by the Company in connection with the consummation of the transactions contemplated by this Section 11.

f) The Company and its successors and assigns shall indemnify and hold harmless each purchaser, each Holder, the officers, directors, members, partners, agents and employees (and any other individuals or entities with a functionally equivalent role of a person holding such titles, notwithstanding a lack of such title or any other title) of each of them, each individual or entity who controls each purchaser or any such Holder (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act) and the officers, directors, members, stockholders, partners, agents and employees (and any other individuals or entities with a functionally equivalent role of a person holding such titles, notwithstanding a lack of such title or any other title) of each such controlling individual or entity (each, an "Indemnified Party"), to the fullest extent permitted by applicable law, from and against any and all losses, claims, damages, liabilities, costs (including, without limitation, reasonable attorneys' fees) and expenses (collectively, "Losses"), as incurred, arising out of or relating to (1) any untrue or alleged untrue statement of a material fact contained in a Registration Statement, any related prospectus or any form of prospectus or in any amendment or supplement thereto or in any preliminary prospectus, or arising out of or relating to any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of any such prospectus or supplement thereto, in light of the circumstances under which they were made) not misleading or (2) any violation or alleged violation by the Company of the Securities Act, the Exchange Act or any state securities law, or any rule or regulation thereunder, in connection with the performance of its obligations under this Section 11, except to the extent, but only to the extent, that such untrue statements or omissions are based upon information regarding a purchaser or such Holder furnished to the Company by such party for use therein. The Company shall notify each purchaser and each Holder promptly of the institution, threat or assertion of any proceeding arising from or in connection with the transactions contemplated by this Section 11 of which the Company is aware. If the indemnification hereunder is unavailable to an Indemnified Party or insufficient to hold an Indemnified Party harmless for any Losses, then the Company shall contribute to the amount paid or payable by such Indemnified Party, in such proportion as is appropriate to reflect the relative fault of the Company and Indemnified Party in connection with the actions, statements or omissions that resulted in such Losses as well as any other relevant equitable considerations. The relative fault of the Company and Indemnified Party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission of a material fact, has been taken or made by, or relates to information supplied by, the Company or the Indemnified Party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action, statement or omission. The amount paid or payable by a party as a result of any Losses shall be deemed to include any reasonable attorneys' or other fees or expenses incurred by such party in connection with any proceeding to the extent such party would have been indemnified for such fees or expenses if the indemnification provided for herein was available to such party in accordance with its terms. It is agreed that it would not be just and equitable if contribution pursuant to this Section 11(f) were determined by pro rata allocation or by any other method of allocation that does not take into account the equitable considerations referred to in the immediately preceding sentence. Notwithstanding the provisions of this Section 11(f), neither the purchaser nor any Holder shall be required to contribute, in the aggregate, any amount in excess of the amount by which the net proceeds actually received by such party from the sale of all of their Registrable Securities pursuant to such Registration Statement or related prospectus exceeds the amount of any damages that such party has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission.

Section 12. Miscellaneous.

no such facsimile number or address appears on the books of the Corporation, at the principal place of business of such Holder, as set forth in the Purchase Agreement. Any notice or other communication or deliveries hereunder shall be deemed given and effective on the earliest of (i) the date of transmission, if such notice or communication is delivered via facsimile at the facsimile number set forth in this Section prior to 5:30 p.m. (New York City time) on any date, (ii) the next Trading Day after the date of transmission, if such notice or communication is delivered via facsimile at the facsimile number set forth in this Section on a day that is not a Trading Day or later than 5:30 p.m. (New York City time) on any Trading Day, (iii) the second Trading Day following the date of mailing, if sent by U.S. nationally recognized overnight courier service, or (iv) upon actual receipt by the party to whom such notice is required to be given.

b) Absolute Obligation. Except as expressly provided herein, no provision of this Certificate of Designation shall alter or impair the obligation of the Corporation, which is absolute and unconditional, to pay liquidated damages, accrued dividends and accrued interest, as applicable, on the shares of Preferred Stock at the time, place, and rate, and in the coin or currency, herein prescribed.

c) Lost or Mutilated Preferred Stock Certificate. If a Holder's Preferred Stock certificate shall be mutilated, lost, stolen or destroyed, the Corporation shall execute and deliver, in exchange and substitution for and upon cancellation of a mutilated certificate, or in lieu of or in substitution for a lost, stolen or destroyed certificate, a new certificate for the shares of Preferred Stock so mutilated, lost, stolen or destroyed, but only upon receipt of evidence of such loss, theft or destruction of such certificate, and of the ownership hereof reasonably satisfactory to the Corporation.

d) Governing Law. All questions concerning the construction, validity, enforcement and interpretation of this Certificate of Designation shall be governed by and construed and enforced in accordance with the internal laws of the State of Nevada, without regard to the principles of conflict of laws thereof. Each party agrees that all legal proceedings concerning the interpretation, enforcement and defense of the transactions contemplated by any of the Transaction Documents (whether brought against a party hereto or its respective Affiliates, directors, officers, stockholders, employees or agents) shall be commenced in the state and federal courts sitting in the City of New York, Borough of Manhattan (the "New York Courts"). Each party hereto hereby irrevocably submits to the exclusive jurisdiction of the New York Courts for the adjudication of any dispute hereunder or in connection herewith or with any transaction contemplated hereby or discussed herein (including with respect to the enforcement of any of the Transaction Documents), and hereby irrevocably waives, and agrees not to assert in any suit, action or proceeding, any claim that it is not personally subject to the jurisdiction of such New York Courts, or such New York Courts are improper or inconvenient venue for such proceeding. Each party hereby irrevocably waives personal service of process and consents to process being served in any such suit, action or proceeding by mailing a copy thereof via registered or certified mail or overnight delivery (with evidence of delivery) to such party at the address in effect for notices to it under this Certificate of Designation and agrees that such service shall constitute good and sufficient service of process and notice thereof. Nothing contained herein shall be deemed to limit in any way any right to serve process in any other manner permitted by applicable law. Each party hereto hereby irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Certificate of Designation or the transactions contemplated hereby. If any party shall commence an action or proceeding to enforce any provisions of this Certificate of Designation, then the prevailing party in such action or proceeding shall be reimbursed by the other party for its attorneys' fees and other costs and expenses incurred in the investigation, preparation and prosecution of such action or proceeding.

e) Waiver. Any waiver by the Corporation or a Holder of a breach of any provision of this Certificate of Designation shall not operate as or be construed to be a waiver of any other breach of such provision or of any breach of any other provision of this Certificate of Designation or a waiver by any other Holders. The failure of the Corporation or a Holder to insist upon strict adherence to any term of this Certificate of Designation on one or more occasions shall not be considered a waiver or deprive that party (or any other Holder) of the right thereafter to insist upon strict adherence to that term or any other term of this Certificate of Designation on any other occasion. Any waiver by the Corporation or a Holder must be in writing.

f) Severability. If any provision of this Certificate of Designation is invalid, illegal or unenforceable, the balance of this Certificate of Designation shall remain in effect, and if any provision is inapplicable to any Person or circumstance, it shall nevertheless remain applicable to all other Persons and

circumstances. If it shall be found that any interest or other amount deemed interest due hereunder violates the applicable law governing usury, the applicable rate of interest due hereunder shall automatically be lowered to equal the maximum rate of interest permitted under applicable law.

g) Next Business Day. Whenever any payment or other obligation hereunder shall be due on a day other than a Business Day, such payment shall be made on the next succeeding Business Day.

h) Headings. The headings contained herein are for convenience only, do not constitute a part of this Certificate of Designation and shall not be deemed to limit or affect any of the provisions hereof.

i) Status of Converted or Redeemed Preferred Stock. Shares of Preferred Stock may only be issued pursuant to a Purchase Agreement. If any shares of Preferred Stock shall be converted, redeemed or reacquired by the Corporation, such shares shall resume the status of authorized but unissued shares of preferred stock and shall no longer be designated as Series B Convertible Preferred Stock.

This Agreement and each other Transaction Document to which it is a party has been (or upon delivery will have been) duly executed by the Company and, when delivered in accordance with the terms hereof and thereof, will constitute the valid and binding obligation of the Company enforceable against the Company in accordance with its terms, except: (i) as limited by general equitable principles and applicable bankruptcy, insolvency, reorganization, moratorium and other laws of general application affecting enforcement of creditors' rights generally, (ii) as limited by laws relating to the availability of specific performance, injunctive relief or other equitable remedies and (iii) insofar as indemnification and contribution provisions may be limited by applicable law.

The Company further understands and acknowledges that (y) the Purchaser may engage in hedging activities at various times during the period that the Securities are outstanding, and (z) such hedging activities (if any) could reduce the value of the existing stockholders' equity interests in the Company at and after the time that the hedging activities are being conducted. The Company acknowledges that such aforementioned hedging activities do not constitute a breach of any of the Transaction Documents.

3.2 Representations and Warranties of the Purchaser. The Purchaser hereby represents and warrants as of the date hereof and as of the Closing Dates to the Company as follows (unless as of a specific date therein):

(a) Organization; Authority. The Purchaser is either an individual or an entity duly incorporated or formed, validly existing and in good standing under the laws of the jurisdiction of its incorporation or formation with full right, corporate, partnership, limited liability company or similar power and authority to enter into and to consummate the transactions contemplated by the Transaction Documents and otherwise to carry out its obligations hereunder and thereunder. The execution and delivery of the Transaction Documents and performance by the Purchaser of the transactions contemplated by the Transaction Documents have been duly authorized by all necessary corporate, partnership, limited liability company or similar action, as applicable, on the part of the Purchaser. Each Transaction Document to which it is a party has been duly executed by the Purchaser, and when delivered by the Purchaser in accordance with the terms hereof, will constitute the valid and legally binding obligation of the Purchaser, enforceable against it in accordance with its terms, except: (i) as limited by general equitable principles and applicable bankruptcy, insolvency, reorganization, moratorium and other laws of general application affecting enforcement of creditors' rights generally, (ii) as limited by laws relating to the availability of specific performance, injunctive relief or other equitable remedies and (iii) insofar as indemnification and contribution provisions may be limited by applicable law.

(b) Own Account. The Purchaser understands that the Securities are "restricted securities" and have not been registered under the Securities Act or any applicable state securities law and is acquiring the Securities as principal for its own account and not with a view to or for distributing or reselling such Securities or any part thereof in violation of the Securities Act or any applicable state securities law, has no present intention of distributing any of such Securities in violation of the Securities Act or any applicable state securities law and has no direct or indirect arrangement or understandings with any other persons to distribute or regarding the distribution of such Securities in violation of the Securities Act or any applicable state securities law (this representation and warranty not limiting the Purchaser's right to sell the Securities pursuant to the Registration Statement or otherwise in compliance with applicable federal and state securities laws). The Purchaser is acquiring the Securities hereunder in the ordinary course of its business.

(c) Purchaser Status. At the time the Purchaser was offered the Securities, it was, and as of the date hereof it is and on each date on which it exercises any Warrants or converts any shares of Preferred Stock, either: (i) an "accredited investor" as defined in Rule 501(a)(1), (a)(2), (a)(3), (a)(7) or (a)(8) under the Securities Act or (ii) a "qualified institutional buyer" as defined in Rule 144A(a) under the Securities Act.

(d) Experience of the Purchaser. The Purchaser, either alone or together with its representatives, has such knowledge, sophistication and experience in business and financial matters so as to be capable of evaluating the merits and risks of the prospective investment in the Securities, and has so evaluated the merits and risks of such investment. The Purchaser is able to bear the economic risk of an investment in the Securities and, at the present time, is able to afford a complete loss of such investment.

(e) General Solicitation. The Purchaser is not purchasing the Securities as a result of any advertisement, article, notice or other communication regarding the Securities published in any newspaper, magazine or similar media or broadcast over television or radio or presented at any seminar or any other general solicitation or general advertisement.

ARTICLE IV. OTHER AGREEMENTS OF THE PARTIES

4.1 Transfer Restrictions.

(a) The Securities may only be disposed of in compliance with state and federal securities laws. In connection with any transfer of Securities other than pursuant to an effective registration statement or Rule 144, to the Company or to an Affiliate of the Purchaser or in connection with a pledge as contemplated in Section 4.1(b), the Company may require the transferor thereof to provide to the Company an opinion of counsel selected by the transferor and reasonably acceptable to the Company, the form and substance of which opinion shall be reasonably satisfactory to the Company, to the effect that such transfer does not require registration of such transferred Securities under the Securities Act. As a condition of transfer, any such transferee shall agree in writing to be bound by the terms of this Agreement and shall have the rights and obligations of the Purchaser under this Agreement.

(b) The Purchaser agrees to the imprinting, so long as is required by this Section 4.1, of a legend on any of the Securities in the following form:

THIS SECURITY HAS NOT BEEN REGISTERED WITH THE SECURITIES AND EXCHANGE COMMISSION OR THE SECURITIES COMMISSION OF ANY STATE IN RELIANCE UPON AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND, ACCORDINGLY, MAY NOT BE OFFERED OR SOLD EXCEPT PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT OR PURSUANT TO AN AVAILABLE EXEMPTION FROM, OR IN A TRANSACTION

NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND IN ACCORDANCE WITH APPLICABLE STATE SECURITIES LAWS AS EVIDENCED BY A LEGAL OPINION OF COUNSEL TO THE TRANSFEROR TO SUCH EFFECT, THE SUBSTANCE OF WHICH SHALL BE REASONABLY ACCEPTABLE TO THE COMPANY. THIS SECURITY MAY BE PLEDGED IN CONNECTION WITH A BONA FIDE MARGIN ACCOUNT WITH A REGISTERED BROKER-DEALER OR OTHER LOAN WITH A FINANCIAL INSTITUTION THAT IS AN "ACCREDITED INVESTOR" AS DEFINED IN RULE 501(a) UNDER THE SECURITIES ACT OR OTHER LOAN SECURED BY SUCH SECURITIES.

The Company acknowledges and agrees that the Purchaser may from time to time pledge pursuant to a bona fide margin agreement with a registered broker-dealer or grant a security interest in some or all of the Securities to a financial institution that is an "accredited investor" as defined in Rule 501(a) under the Securities Act and who agrees to be bound by the provisions of this Agreement and, if required under the terms of such arrangement, the Purchaser may transfer pledged or secured Securities to the pledgees or secured parties. Such a pledge or transfer would not be subject to approval of the Company and no legal opinion of legal counsel of the pledgee, secured party or pledgor shall be required in connection therewith. Further, no notice shall be required of such pledge. At the appropriate Purchaser's expense, the Company will execute and deliver such reasonable documentation as a pledgee or secured party of Securities may reasonably request in connection with a pledge or transfer of the Securities, including, if the Securities are registered under a registration statement, the preparation and filing of any required prospectus supplement under Rule 424(b)(3) under the Securities Act or other applicable provision of the Securities Act to appropriately amend the list of selling stockholders thereunder.

4.2 Acknowledgment of Dilution of Voting Power. The Company acknowledges that the issuance of the Securities will result in dilution of the voting power of the outstanding shares of Common Stock, which dilution will be substantial.

4.3 Integration. The Company shall not sell, offer for sale or solicit offers to buy or otherwise negotiate in respect of any security (as defined in Section 2 of the Securities Act) that would be integrated with the offer or sale of the Securities in a manner that would require the registration under the Securities Act of the sale of the Securities or that would be integrated with the offer or sale of the Securities for purposes of the rules and regulations of any Trading Market such that it would require shareholder approval prior to the closing of such other transaction unless shareholder approval is obtained before the closing of such subsequent transaction.

4.4 Securities Laws Disclosure; Publicity. The Company and the Purchaser shall consult with each other in issuing any other press releases with respect to the transactions contemplated hereby including for the initial press release pursuant to Section 4.8, and neither the Company nor the Purchaser shall issue any such press release nor otherwise make any such public statement without the prior consent of the Company, with respect to any press release of the Purchaser, or without the prior consent of the Purchaser, with respect to any press release of the Company, which consent shall not unreasonably be withheld or delayed, except if such

disclosure is required by law, in which case the disclosing party shall promptly provide the other party with prior notice of such public statement or communication. Notwithstanding the foregoing, the Company shall not publicly disclose the name of the Purchaser, or include the name of the Purchaser in any filing with the Commission or any regulatory agency or Trading Market, without the prior written consent of the Purchaser, except: (a) as required by federal securities law in connection with the filing of final Transaction Documents with the Commission and (b) to the extent such disclosure is required by law or Trading Market regulations, in which case the Company shall provide the Purchaser with prior notice of such disclosure permitted under this clause (b).

4.5 Shareholder Rights Plan. No claim will be made or enforced by the Company or, with the consent of the Company, any other Person, that the Purchaser is an "Acquiring Person" under any control share acquisition, business combination, poison pill (including any distribution under a rights agreement) or similar anti-takeover plan or arrangement in effect or hereafter adopted by the Company, or that the Purchaser could be deemed to trigger the provisions of any such plan or arrangement, by virtue of receiving Securities under the Transaction Documents or under any other agreement between the Company and the Purchaser.

4.6 Non-Public Information. Except with respect to the material terms and conditions of the transactions contemplated by the Transaction Documents, the Company covenants and agrees that neither it, nor any other Person acting on its behalf, will provide the Purchaser or its agents or counsel with any information that the Company believes constitutes material non-public information, unless prior thereto the Purchaser shall have entered into a written agreement with the Company regarding the confidentiality and use of such information. The Company understands and confirms that the Purchaser shall be relying on the foregoing covenant in effecting transactions in securities of the Company.

4.7 Indemnification of Purchaser and Broker. Subject to the provisions of this Section 4.7, the Company will indemnify and hold the Purchaser and their respective directors, officers, shareholders, members, partners, employees and agents (and any other Persons with a functionally equivalent role of a Person holding such titles notwithstanding a lack of such title or any other title), each Person who controls the Purchaser (within the meaning of Section 15 of the Securities Act and Section 20 of the Exchange Act), and the directors, officers, shareholders, agents, members, partners or employees (and any other Persons with a functionally equivalent role of a Person holding such titles notwithstanding a lack of such title or any other title) of such controlling persons (each, a "Purchaser Party") harmless from any and all losses, liabilities, obligations, claims, contingencies, damages, costs and expenses, including all judgments, amounts paid in settlements, court costs and reasonable attorneys' fees and costs of investigation that any such Purchaser Party may suffer or incur as a result of or relating to (a) any breach of any of the representations, warranties, covenants or agreements made by the Company in this Agreement or in the other Transaction Documents or (b) any action instituted against the Purchaser Parties in any capacity, or any of them or their respective Affiliates, by any stockholder of the Company who is not an Affiliate of such Purchaser Party, with respect to any of the transactions contemplated by the Transaction Documents (unless such action is based upon a breach of such Purchaser Party's representations, warranties or covenants under the Transaction Documents or any agreements or understandings such Purchaser Party may have

with any such stockholder or any violations by such Purchaser Party of state or federal securities laws or any conduct by such Purchaser Party which constitutes fraud, gross negligence, willful misconduct or malfeasance). If any action shall be brought against any Purchaser Party in respect of which indemnity may be sought pursuant to this Agreement, such Purchaser Party shall promptly notify the Company in writing, and the Company shall have the right to assume the defense thereof with counsel of its own choosing reasonably acceptable to the Purchaser Party. Any Purchaser Party shall have the right to employ separate counsel in any such action and participate in the defense thereof, but the fees and expenses of such counsel shall be at the expense of such Purchaser Party except to the extent that (i) the employment thereof has been specifically authorized by the Company in writing, (ii) the Company has failed after a reasonable period of time to assume such defense and to employ counsel or such defense once started is subsequently delayed owing to lack of timely payment by the Company of legal fees and expenses or (iii) in such action there is, in the reasonable opinion of counsel, a material conflict on any material issue between the position of the Company and the position of such Purchaser Party, in which case the Company shall be responsible for the reasonable fees and expenses of no more than one such separate counsel. The Company will not be liable to any Purchaser Party under this Agreement (y) for any settlement by a Purchaser Party effected without the Company's prior written consent, which shall not be unreasonably withheld or delayed; or (z) to the extent, but only to the extent that a loss, claim, damage or liability is attributable to any Purchaser Party's breach of any of the representations, warranties, covenants or agreements made by such Purchaser Party in this Agreement or in the other Transaction Documents. The indemnification required by this Section 4.7 shall be made by periodic payments of the amount thereof during the course of the investigation or defense, as and when bills are received or are incurred. The indemnity agreements contained herein shall be in addition to any cause of action or similar right of any Purchaser Party against the Company or others and any liabilities the Company may be subject to pursuant to law.

4.8 Certain Transactions and Confidentiality. The Purchaser, covenants that neither it, nor any Affiliate acting on its behalf or pursuant to any understanding with it will (i) execute any Short Sales, of any of the Company's securities during the period commencing with the execution of this Agreement and ending at such time that the transactions contemplated by this Agreement are first publicly announced pursuant to the initial press release as described in Section 4.4 or (ii) from the date hereof until the earlier of the 12 month anniversary of the date hereof and the date that the Preferred Stock is no longer outstanding, execute any Short Sales of the Common Stock (a "Prohibited Short Sale"). The Purchaser covenants that until such time as the transactions contemplated by this Agreement are publicly disclosed by the Company pursuant to the initial press release as described in Section 4.4, the Purchaser will maintain the confidentiality of the existence and terms of this transaction and the information included in the Transaction Documents and the Disclosure Schedules. Notwithstanding the foregoing, and notwithstanding anything contained in this Agreement to the contrary, the Company expressly acknowledges and agrees that (i) the Purchaser does not make any representation, warranty or covenant hereby that it will not engage in effecting transactions in any securities of the Company after the time that the transactions contemplated by this Agreement are first publicly announced pursuant to the initial press release as described in Section 4.4, (ii) except for a Prohibited Short Sale, the Purchaser shall not be restricted or prohibited from effecting any transactions in any securities of the Company in accordance with applicable securities laws from and after the time

that the transactions contemplated by this Agreement are first publicly announced pursuant to the initial press release as described in Section 4.4 and (iii) the Purchaser shall have no duty of confidentiality to the Company or its Subsidiaries after the issuance of the initial press release as described in Section 4.4.

4.9 Form D; Blue Sky Filings. The Company agrees to timely file a Form D with respect to the Securities as required under Regulation D and to provide a copy thereof, promptly upon request of the Purchaser. The Company shall take such action as the Company shall reasonably determine is necessary in order to obtain an exemption for, or to qualify the Securities for, sale to the Purchaser under applicable securities or "Blue Sky" laws of the states of the United States, and shall provide evidence of such actions promptly upon request of the Purchaser.

**ARTICLE V.
MISCELLANEOUS**

5.1 Termination. This Agreement may be terminated by the Purchaser, as to the Purchaser's obligations hereunder, if the Closing has not been consummated within five (5) Business Days of the date hereof; provided, however, that such termination will not affect the right of any party to sue for any breach by any other party (or parties).

5.2 Fees and Expenses. Except as expressly set forth in the Transaction Documents to the contrary, each party shall pay the fees and expenses of its advisers, counsel, accountants and other experts, if any, and all other expenses incurred by such party incident to the negotiation, preparation, execution, delivery and performance of this Agreement. The Company shall pay all Transfer Agent fees (including, without limitation, any fees required for same-day processing of any instruction letter delivered by the Company), stamp taxes and other taxes and duties levied in connection with the delivery of any Securities to the Purchaser.

5.3 Entire Agreement. The Transaction Documents, together with the exhibits and schedules thereto, contain the entire understanding of the parties with respect to the subject matter hereof and thereof and supersede all prior agreements and understandings, oral or written, with respect to such matters, which the parties acknowledge have been merged into such documents, exhibits and schedules.

5.4 Notices. 5.5 Amendments; Waivers. No provision of this Agreement may be waived, modified, supplemented or amended except in a written instrument signed, in the case of an amendment, by the Company and the holders of at least 67% in interest of the Securities then outstanding or, in the case of a waiver, by the party against whom enforcement of any such waived provision is sought. No waiver of any default with respect to any provision, condition or requirement of this Agreement shall be deemed to be a continuing waiver in the future or a waiver of any subsequent default or a waiver of any other provision, condition or requirement hereof, nor shall any delay or omission of any party to exercise any right hereunder in any manner impair the exercise of any such right.

5.6 Headings. The headings herein are for convenience only, do not constitute a part of this Agreement and shall not be deemed to limit or affect any of the provisions hereof.

5.7 Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the parties and their successors and permitted assigns. The Company may not assign this Agreement or any rights or obligations hereunder without the prior written consent of the Purchaser (other than by merger). The Purchaser may assign any or all of its rights under this Agreement to any Person to whom the Purchaser assigns or transfers any Securities, provided that such transferee agrees in writing to be bound, with respect to the transferred Securities, by the provisions of the Transaction Documents that apply to the "Purchaser."

5.8 No Third-Party Beneficiaries. This Agreement is intended for the benefit of the parties hereto and their respective successors and permitted assigns and is not for the benefit of, nor may any provision hereof be enforced by, any other Person, except as otherwise set forth in Section 4.7 and this Section 5.8.

5.9 Governing Law. All questions concerning the construction, validity, enforcement and interpretation of the Transaction Documents shall be governed by and construed and enforced in accordance with the internal laws of the State of Nevada, without regard to the principles of conflicts of law thereof. Each party agrees that all legal proceedings concerning the interpretations, enforcement and defense of the transactions contemplated by this Agreement and any other Transaction Documents (whether brought against a party hereto or its respective affiliates, directors, officers, shareholders, partners, members, employees or agents) shall be commenced exclusively in the state or federal courts sitting in the City of New York. Each party hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts sitting in the City of New York, Borough of Manhattan for the adjudication of any dispute hereunder or in connection herewith or with any transaction contemplated hereby or discussed herein (including with respect to the enforcement of any of the Transaction Documents), and hereby irrevocably waives, and agrees not to assert in any suit, action or proceeding, any claim that it is not personally subject to the jurisdiction of any such court, that such suit, action or proceeding is improper or is an inconvenient venue for such proceeding. Each party hereby irrevocably waives personal service of process and consents to process being served in any such suit, action or proceeding by mailing a copy thereof via registered or certified mail or overnight delivery (with evidence of delivery) to such party at the address in effect for notices to it under this Agreement and agrees that such service shall constitute good and sufficient service of process and notice thereof. Nothing contained herein shall be deemed to limit in any way any right to serve process in any other manner permitted by law. If either party shall commence an action, suit or proceeding to enforce any provisions of the Transaction Documents, then, in addition to the obligations of the Company under Section 4.7, the prevailing party in such action, suit or proceeding shall be reimbursed by the other party for its reasonable attorneys' fees and other costs and expenses incurred with the investigation, preparation and prosecution of such action or proceeding.

5.10 Survival. The representations and warranties contained herein shall survive each Closing and the delivery of the Securities.

5.11 Execution. This Agreement may be executed in two or more counterparts, all of which when taken together shall be considered one and the same agreement and shall become effective when counterparts have been signed by each party and delivered to each other party, it being understood that the parties need not sign the same counterpart. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.

5.12 Severability. If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction to be invalid, illegal, void or unenforceable, the

remainder of the terms, provisions, covenants and restrictions set forth herein shall remain in full force and effect and shall in no way be affected, impaired or invalidated, and the parties hereto shall use their commercially reasonable efforts to find and employ an alternative means to achieve the same or substantially the same result as that contemplated by such term, provision, covenant or restriction. It is hereby stipulated and declared to be the intention of the parties that they would have executed the remaining terms, provisions, covenants and restrictions without including any of such that may be hereafter declared invalid, illegal, void or unenforceable.

5.13 Rescission and Withdrawal Right. Notwithstanding anything to the contrary contained in (and without limiting any similar provisions of) any of the other Transaction Documents, whenever any Purchaser exercises a right, election, demand or option under a Transaction Document and the Company does not timely perform its related obligations within the periods therein provided, then the Purchaser may rescind or withdraw, in its sole discretion from time to time upon written notice to the Company, any relevant notice, demand or election in whole or in part without prejudice to its future actions and rights.

5.14 Replacement of Securities. If any certificate or instrument evidencing any Securities is mutilated, lost, stolen or destroyed, the Company shall issue or cause to be issued in exchange and substitution for and upon cancellation thereof (in the case of mutilation), or in lieu of and substitution therefor, a new certificate or instrument, but only upon receipt of evidence reasonably satisfactory to the Company of such loss, theft or destruction. The applicant for a new certificate or instrument under such circumstances shall also pay any reasonable third-party costs (including customary indemnity) associated with the issuance of such replacement Securities.

5.15 Remedies. In addition to being entitled to exercise all rights provided herein or granted by law, including recovery of damages, the Purchaser and the Company will be entitled to specific performance under the Transaction Documents. The parties agree that monetary damages may not be adequate compensation for any loss incurred by reason of any breach of obligations contained in the Transaction Documents and hereby agree to waive and not to assert in any action for specific performance of any such obligation the defense that a remedy at law would be adequate.

5.16 Payment Set Aside. To the extent that the Company makes a payment or payments to the Purchaser pursuant to any Transaction Document or the Purchaser enforces or exercises its rights thereunder, and such payment or payments or the proceeds of such enforcement or exercise or any part thereof are subsequently invalidated, declared to be fraudulent or preferential, set aside, recovered from, disgorged by or are required to be refunded, repaid or otherwise restored to the Company, a trustee, receiver or any other Person under any law (including, without limitation, any bankruptcy law, state or federal law, common law or equitable cause of action), then to the extent of any such restoration the obligation or part thereof originally intended to be satisfied shall be revived and continued in full force and effect as if such payment had not been made or such enforcement or setoff had not occurred.

5.17 Liquidated Damages. The Company's obligations to pay any partial liquidated damages or other amounts owing under the Transaction Documents is a continuing obligation of

the Company and shall not terminate until all unpaid partial liquidated damages and other amounts have been paid notwithstanding the fact that the instrument or security pursuant to which such partial liquidated damages or other amounts are due and payable shall have been canceled.

5.18 Saturdays, Sundays, Holidays, etc. If the last or appointed day for the taking of any action or the expiration of any right required or granted herein shall not be a Business Day, then such action may be taken or such right may be exercised on the next succeeding Business Day.

5.19 Construction. The parties agree that each of them and/or their respective counsel have reviewed and had an opportunity to revise the Transaction Documents and, therefore, the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of the Transaction Documents or any amendments thereto. In addition, each and every reference to share prices and shares of Common Stock in any Transaction Document shall be subject to adjustment for reverse and forward stock splits, stock dividends, stock combinations and other similar transactions of the Common Stock that occur after the date of this Agreement.

5.20 **WAIVER OF JURY TRIAL.** IN ANY ACTION, SUIT, OR PROCEEDING IN ANY JURISDICTION BROUGHT BY ANY PARTY AGAINST ANY OTHER PARTY, THE PARTIES EACH KNOWINGLY AND INTENTIONALLY, TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW, HEREBY ABSOLUTELY, UNCONDITIONALLY, IRREVOCABLY AND EXPRESSLY WAIVES FOREVER TRIAL BY JURY.
